REPORT OF THE SELECTMEN.

The Selectmen submit the following report for the year ending Dec. 31, 1898.

Edgestones and paved gutters have been placed in Ashland street on all the steep grades. Gray street has had edgestones placed its entire length on one side, and the gutters have been paved on the steep grades. Edgestones have also been placed in several other streets.

Concrete and gravel sidewalks have been made and repaired and in several cases have been built where there were no walks before.

Broadway remains in about the same condition as a year ago. It has been repaired several times, but new defects break through in a short time.

The underground drain which was placed in Park avenue last year has proved a success in taking care of the surface-water.

We recommend the placing of similar drains in other streets.

Complaints were received about the surface-water on Broadway, and an underground drain has been laid in this street from Palmer street through Franklin street and connecting with the drain in Warren street. A portion of this water formerly went through a drain in private lands, without a right of way, and emptied into Spy Pond. We did not deem it advisable to repair this drain, for if the land through which it run should be built upon, the water would have to be taken care of in some way. For the same reason

an underdrain has also been laid from the catch-basin in front of Swan's Block, across Massachusetts avenue, connecting with the drain on Mystic street.

The County Commissioners have given a hearing on the straightening and widening of Chestnut street.

Repairs will be necessary on many streets the coming year.

The two severe snow-storms which occurred during the year caused a large additional expense to this department.

For a more detailed account of the work done on the streets we refer to the Report of the Superintendent of Streets. A location was granted the Lexington Street Railway Company for a track location on Massachusetts avenue, from the car-house of the Boston Elevated Railway Company to the Lexington line, but expired by limitation.

Locke School.

The new Locke School building for which an appropriation was made the present year, is practically completed, but has not yet been turned over to the Town. The old building formerly used for the school has been sold for $400.

Shade Trees.

The appropriation was expended in trimming the young maple trees throughout the town, and the elm trees on Massachusetts avenue. We recommend a larger appropriation each year until all the trees have been trimmed.

Street Signs.

Signs have been placed on the following street: Water street, corner Massachusetts avenue; Cleveland street, corner Massachusetts avenue; Henderson street, corner Massachusetts avenue.

Street Numbering.

The streets in that portion of the Town not numbered in 1897, have been numbered the past year.

Contracts for Coal.

The contract for coal was awarded to the Peirce & Winn Company, at the following prices:

Honey Brook Lehigh Egg	$5 02
Furnace, Egg, and Stove	4 62
Georges Creek Cumberland	3 17

Board of Survey.

The Board of Selectmen, acting as the Board of Survey, has, on the petitions of the owners, laid out the following streets: Atwood avenue, Grand View road, Kenilworth road, School street, Revere street, Menotomy road, Hawthorne avenue, Pine Ridge road, Irving street, and street through land of Maria A. Davis from Massachusetts avenue to Vine street.

The expense has been borne by the owners of the land.

We recommend that an appropriation be made for the use of this Board in laying out streets that may be deemed necessary by them.

Lawsuits.

Several lawsuits which have been brought against the Town have been settled by the advice of counsel.

Street Lights.

At present there are 88½ arc and 144 Incandescent lights. During the year the following lights have been added:

3	Incandescent	on	Kensington park.
1	"	"	Broadway.
2	"	"	Robbins road.
2	"	"	Appleton place.
1	"	"	Cliff street.
3	"	"	Avon place.
1	"	"	Ashland street.
1	"	"	Chapman street.
1	"	"	Oakland avenue.
1	"	"	Court street.
1	Arc	"	Kensington park.
1	"	"	Gray street, corner Bartlett avenue.
4	"	"	Massachusetts avenue.
1	"	"	Irving street.
1	"	"	Florence avenue.

As the contract with the Somerville Electric Light Company expires to-day, and no provision having been made for the coming year, the Town will have to be lighted temporarily by that company.

Town House.

During the year but few repairs have been needed. The receipts have been small, but, together with the appropriation, the balance shows a good sum unexpended.

The property purchased for the new Town Hall site came into the possession of the Town in May and July.

The buildings are all rented at present for $1,382 per annum, some on lease. The long-term leases expire in 1902. The buildings being old will require some repairs in order to keep them rented.

Almshouse.

We lost the services of Mr. B. F. Durgin, the Superintendent, by death, on the twenty-fifth day of July. Mr. Durgin rendered very satisfactory and efficient service in the Town's behalf during the entire term of his office. We thought it best to allow Mrs. Durgin to act as Superintendent for the remainder of the term for which Mr. Durgin was appointed, and she has given perfect satisfaction.

Ordinary repairs have been made and an additional bathroom constructed. One inmate has been placed in the Danvers Hospital, and one has died. There are seven inmates at the present time, six male and one female.

Fire Department.

The department has reached a high state of efficiency as regards both members and apparatus, and in the opinion of one, at least, of our Fire Underwriters it is not excelled by the department of any town in the State. This excellent condition is due largely to the interest of the engineers, officers, and men, and they are encouraged in their duties by the fact that owing to liberal appropriations by the Town, they have proper apparatus with which to perform those duties.

The promptness with which alarms are answered proves the wisdom of giving the entire time of the horses to the department.

No large fires have occurred during the year in this town, but the department responded to the alarm for a large fire just over the line, in Belmont.

The promptness with which they responded and the efficient work that they performed saved a large amount of property, and won for them the praise of all who witnessed it, and also the gratitude of those whose property was saved.

The Town has reason to be proud of this department.

Police Department.

You are referred to the report of the Chief of Police for amount of work accomplished. We consider the force, for its size, second to none in any town in the State.

Outside Poor.

The expenditures have increased, owing largely to help given persons having a settlement here, but living in other places where they have not acquired a settlement.

Help given those residing here has also increased.

EDWIN S. FARMER,
GEORGE I. DOE,
WALTER CROSBY,
Selectmen.

REPORT

OF THE

SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

GENTLEMEN: I submit to you my annual report for the year ending Dec. 31, 1898.

Appleton Street.

From Massachusetts avenue to Oakland avenue has been coated with fine crushed stone and gravelled, and from Claremont avenue for a distance of 1,300 feet has been put in condition by lowering the sides of the street and gravelling the centre. The sidewalk on the west side, from Vine street to Park avenue, has been graded and coated with stone-dust.

Ashland Street.

This street, after being accepted by the Town, has been graded its entire length; edgestones set on both sides, from Appleton street to the top of the hill, a distance of 650 feet, gutters paved, roadbed crowned with fine crushed stone and gravel. The sidewalks on both sides have been graded and coated with stone-dust.

Brattle Street.

From Massachusetts avenue to the bridge, on this street, has been repaired by putting on a coat of blue gravel, then a light coat of fine crushed stone, and rolling it into the gravel.

Broadway.

The drain from Warren street has been extended through Franklin street along Broadway to Wyman street with eleven catch-basins and seven manholes, with drains across the street, to connect with the main pipe. The street has required constant patching.

Chestnut Street.

The trench left here after putting in the sewer has been levelled and a portion near Mystic street has been gravelled.

Claremont Avenue.

From Mr. W. O. Patridge's driveway to Appleton street this street has been put in repair by removing the loam at considerable depth and filling in with coarse gravel and small stones to a sub-grade, then coating the surface with fine gravel. The sidewalk on the northeast side has been graded and coated with fine gravel.

Cliff Street.

The junction of this street with Oakland avenue was left in an unsafe condition. A 12-inch pipe has been laid in the gutter of Oakland avenue across Cliff street and the street filled to make an easier grade. The street has been gravelled to the top of the hill.

Eastern Avenue.

This street in places has been repaired by scraping the sides into the middle of the road and coating with gravel.

Florence Avenue.

Between Park avenue and Ashland street this street has been widened to its full width and the roadbed gravelled.

The walks on the west side from Claremont avenue to Ashland street and on the east side from Ashland street to Appleton street have been graded and coated with stone-dust.

Forest Street.

This street has received its usual attention, the gutters cleaned, the street gravelled a considerable distance, a 12-inch drain laid across the street at the foot of the hill.

Franklin Street.

Between Broadway and Warren street this street has been coated with fine crushed stone, then gravelled and rolled.

Gray Street.

Edgestone has been set the entire distance on the south side of this street and on the north side from Ravine street to the end of the street. Gutters have been paved on the south side from Pleasant street to Ravine street and from Bartlett avenue on both sides to the end of the street. The sidewalks on both sides from Jason street to the west end have been graded and coated with stone-dust.

Henderson Street.

In putting in the sewer this street was left in a bad condition. It has been repaired by picking the surface and levelling the roadbed, coating with crushed stone, rolling, and then covering with a coat of screened blue gravel. A 12-inch pipe has been laid from the low place in this street to Massachusetts avenue and then along the avenue to Alewife Brook with suitable catch-basins, to drain the street.

Irving Street.

A 15-inch drain-pipe has been laid along the recently accepted part of this street from Wm. T. Foster's line to and

across Pleasant street, connecting with Spring Valley drain, with three catch-basins, to take the water from this part of the streets.

Lowell Street.

This street has been patched in many places. The sidewalk on the east side from Westmoreland avenue to Mrs. Lewis' line has been graded and gravelled with screened blue gravel, and on the opposite side to Park avenue it has been coated with screened gravel.

Massachusetts Avenue.

This street from Alewife Brook to Henderson street, both sides, and from Henderson street to the Samuel Butterfield estate on the south side has been repaired by a heavy coat of crushed stone, well rolled and covered with screened blue gravel. From the Butterfield estate on the south side to Broadway and many rough places on the north side the street have been picked, light coated with fine crushed stone, rolled and gravelled. For a distance of about 600 feet in front of Henry J. Locke's on the south side and from Thomas Higgins' shop to Crusher lane, the road has been thoroughly rebuilt by removing the old roadbed to the depth of ten inches and filling with crushed stone, well rolled and covered with screened blue gravel. On the south side from Appleton street to 100 feet beyond Park avenue and on the north side from Lowell street to the car-house of the Elevated Railroad Company, the road has been picked with steam roller, covered with coarse crushed stone well rolled, then coated with fine crushed stone also rolled, and finally covered with screened blue gravel.

The sidewalk from Park avenue on the north side has been

repaired by raising the grade near the car-house and coating with stone-dust.

A 12-inch drain has been laid from the culvert on Massachusetts avenue 150 feet along the avenue to a low place in the street opposite the car-house. From E. E. Upham's store a 12-inch drain has been laid to connect with the drain on Mystic street.

A 10-inch drain has been laid from the entrance of Chase's Livery Stable to connect with the catch-basin opposite the Merrifield Block.

Montague Avenue.

This street has been gravelled its entire length. The sidewalk on the north side has been coated with stone-dust.

Mystic Street.

From Massachusetts avenue to Summer street this street has been repaired by picking the roadbed, coating with crushed stone, rolling and covering with gravel. The sidewalk on the park side has been covered with stone-dust.

Park Avenue.

This street near Oakland avenue has been gravelled for a short distance. The sidewalk from Wollaston avenue to Florence avenue has been coated with stone-dust.

Robbins Road.

A portion of the upper end of this road has been gravelled. The sidewalk on the north side from Massachusetts avenue to beyond Joseph Hallian's has been coated with stone-dust.

Tufts Street.

This street has been coated with crushed stone and gravel its entire length.

Wellington Street.

From Frank Y. Wellington's to the end this street has been gravelled. The sidewalk on both sides has been graded, and the south side has been coated with stone-dust.

Westminster Avenue.

This avenue near Wm. T. Nourse's place has been gravelled for a short distance.

Drainage.

There has been $3,657 expended on drainage, which is included in the report of the work done on the streets.

Crusher.

The crushing plant is in good repair. We have on hand 2,500 tons of stone. I believe the time has come when instead of buying stone it would be cheaper to blast from the ledge, as this could be done in the winter season when work could not be done on the streets.

Sidewalks.

There have been 1,913 yards of concrete and 75 yards of brick walk laid. Two hundred and sixty-nine double loads of stone-dust have been put on the walks.

Crosswalks.

There have been three crosswalks laid: two across the avenue, one opposite Henderson street, the other at the foot of Bartlett avenue, and one across Maple street, at its junction with Pleasant street.

Edgestones.

There has been 3,750 feet of edgestone set, the abutters paying for the stone, the Town doing the teaming and set-

ting. One thousand two hundred and eighty-five yards of gutter have been paved.

Watering Streets.

Four double teams have been employed in watering the streets, two furnished by the Highway Department and the remaining two let out by contract.

Offal and Ashes.

As last year, have been removed by the Highway Department. It now requires two men and two horses nearly all the time for the removal of offal. The Highway Department teams are used for removing the ashes.

Teams and Tools

are in good condition and will require but slight repair the coming spring. At present there are 14 horses, 5 double and three single road carts, steam-roller, 1 two-horse sectional roller, 1 jigger, 1 hay wagon, 1 ash cart, 1 offal wagon, 4 two-horse watering-carts, and one single watering-cart.

Respectfully submitted,

S. E. KIMBALL,

Superintendent of Streets.

TREASURER'S REPORT.

EXPENDITURES.

Highways and Bridges.

Paid Samuel E. Kimball, Supt.	$1,474	98
Laborers	16,280	18

Police appropriation	$8,000

For a detailed account of all expenses, see Town Treasurer's Report.

Police Organization.

Headquarters, Town Hall Building.

ALONZO S. HARRIMAN, *Chief.*

PATROLMEN.

Garrett Barry,	Garrett J. Cody,
John Duffy,	Daniel M. Hooley,
Andrew Irwin,	James E. Whitten,

Charles H. Woods.

The chief and two patrolmen are on duty in the daytime; during the night five patrolmen are on duty.

Changes.

During the past year it was found necessary to place another officer on duty days. The large amount of travel to Arlington Heights necessitating another officer in that part of the Town, Officer Barry was detailed for that duty.

Illegal Liquor Business.

A constant effort has been made during the year to suppress the illegal sale of intoxicating liquor, with the very gratifying results, a conviction in every case but one taken into the courts.

Recommendations.

I would renew my recommendation that a horse and wagon be procured for this department. That one more patrolman be appointed to fill the vacancy now existing in the night force. I would also recommend that in making up the appropriations, that a sufficient sum be appropriated so that special officers can be placed on duty every Sunday through the summer months.

Conclusion.

In conclusion, I wish to thank your honorable Board for the courteous consideration received from you officially, also all town officials for their assistance.

It gives me great pleasure to state that the members of this department have shown a desire to perform their duties faithfully at all times, and to assist me in the discharge of my duties, for which I wish to extend to them my hearty thanks.

Respectfully submitted,

ALONZO S. HARRIMAN,
Chief of Police.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Honorable Board of Selectmen:

GENTLEMEN: I respectfully submit my Annual Report for the year ending Dec. 31, 1898.

We have had no serious fires to contend with, so the fire loss has been very small.

FIRES.

The department has answered twelve bell alarms, one of which was out of town, and four still alarms.

Alarms.

	Date.	Time.	Box.	Value.	Insurance.	Value of Contents.	Insurance.	Loss.	Loss of Contents.
Wm. Whytal & Son, awning	Jan. 12	11.20 A.M.	36	$20	....	....	....	$20

Wm. Walsh, stable	Nov. 1	1.40 P.M.	28	100	100	....	....	100	
W. W. Storer, house	Nov. 19	8.15 P.M.	Still alarm	3,000	2,000				
Donald Higgins, house	Dec. 4	.....	No alarm	2,500	2,000	1,000	1,000	8	$52
Wm. E. Wood, house	Dec. 4	.....	No alarm	5,000	4,000	1,500	1,500	10	13
Josiah Crosby estate, chimney	Dec. 17	8.13 A.M.	17	1,200	1,200				

Membership.

The membership of the department, the same as last year, consists of five permanent men, divided as follows:

John F. Sweeney, driver of Hose 1.
Daniel Tierney, driver of Hose 2.
A. F. Brooks, driver of Hose 3.
D. J. Sullivan, driver of Truck 1.
Wm. C. Meade, driver of Chemical 5.

Also fifty-nine call-men, one chief, and two assistants. Each company has its full complement of men, also a list of men ready to fill vacancies.

Fire Alarm.

This important branch is in fair condition at the present time. We have had one or two burn-outs, but these are liable to occur at any time. The severe storm of last February caused considerable trouble and expense. Our town was able to give the "no school" signal, which the surrounding towns were unable to do.

Apparatus.

The apparatus remains the same as in last report, nothing having been expended on them.

Buildings.

The buildings have had no repairs, excepting the painting of the doors and windows in Hose 3, and the interior of the lower floor of Hose 2. This being done by our permanent men.

Hose.

We have 6,000 feet of hose in good condition, no purchase being made this year.

Horses.

As in last report the department has nine horses.

The Fireman's Relief Association is in very good condition.

Recommendations.

I would recommend that a pair of horses be purchased for the Truck. Also, that a repeater be bought, and the fire alarm be divided into four or more circuits.

Appropriations.

To meet the expenses of the coming year I would recommend that the sum of $8,500 and unexpended balance be appropriated.

The horses have consumed 851 bushels of grain, 33,233 pounds of hay, and used 5,804 pounds of straw.

Grain amounting to	$306 05
Hay amounting to	281 54
Straw amounting to	46 65
Total	$634 24

Making a cost of horses per week, $1.43.

Conclusion.

I wish to thank your honorable Board for the gentlemanly manner in which they have received me in my official duty. To my assistant engineers, accept my thanks for the coöperation in all Fire Department business. To the officers and men, my thanks for the cheerful manner in which they have performed all duties of the department and the interest taken to render quick and efficient service.

Respectfully submitted,

CHARLES GOTT,

Chief Engineer.

REPORT

OF THE

BOARD OF HEALTH.

Arlington has been free from epidemic of contagious or infections diseases during the year 1898.

The entire number of cases of scarlet fever has been seven.

Diphtheria has been more prevalent than in 1897, the number of cases having been eighteen, with only one death. Of these eighteen cases seven were under one roof, all having been exposed before medical attendance was sought. In this instance the sanitary condition was extremely bad — a damp cellar and an overflowing cesspool within a few feet of the house. One member of the family died. Not only is eighteen cases of diphtheria in a town with a population of nearly eight thousand so close to a large metropolis, a very small number, but the percentage of mortality of these cases is unusually small, 5.6 per cent. We believe that antitoxin was used in each case of diphtheria, and to that remedy is ascribed the very low death rate.

Before the discovery and use of antitoxin the hospital mortality was 40 to 50 per cent.; now with the same *general* treatment, but with the liberal use of antitoxin, the mortality is only 10 to 13 per cent.

The same results are attained in private practice as in the hospitals, by the liberal use of antitoxin. During the year there have been twenty-one cases of typhoid fever.

These have appeared at different times throughout the

entire year, one case in January, one in June, two in August, four in September, four in October, five in November, and four in December. These cases were scattered throughout the town, and had nearly as many different supplies of milk and drinking-water as there were families.

Several of these patients evidently brought the disease to their homes, having contracted it elsewhere.

From one of these cases it is probable that three other cases of the above eighteen originated through the unsanitary condition of the house in which all lived.

In one other family a second case developed, and here, too, the sanitary conditions were bad.

It is urgently recommended by the Board of Health that all houses be connected with the sewer at the earliest possible time, as affording the surest safeguard against the possible origin and certain spread of disease.

From the fact that much has been said regarding the condition of Spy pond and Little Spy pond, and the quality of the ice taken from them and distributed in this town and its vicinity, this Board has considered it to be its duty to ascertain the facts in the case for the benefit of our citizens and for the public generally. For that purpose we have consulted the State Chemist, Dr. Sharples, who has been familiar with these ponds for many years, and analyzes samples of all the ice that is delivered in Boston and the surrounding cities and towns.

We are pleased to be able to state upon his authority that the ice taken from these ponds is of excellent quality and free from any impurities that would render it undersirable for domestic use.

Plumbing Inspections.

During the past year one hundred and forty-nine applications for plumbing have been received and placed on file. The required water tests have been applied and prove effective, while the plumbing is in process of construction.

The inspector of plumbing has been frequently called upon to make examination of premises and inspections of plumbing for proposed sewer connections, and has always recommended that every part of such work should be done in the most thorough and substantial manner, to avoid danger to health from sanitary defects.

The services of our Board have been from time to time called for, to abate nuisances in different parts of our town. Everything possible in response thereto has been done.

Our town has made remarkable progress the past year in advancing great public improvements. Especially important from a sanitary point of view is the anticipated water supply within a few months from the Metropolitan System. The value to our town of such a bountiful supply of pure water cannot be over estimated.

The rapid progress of the extension of our sewer system is worthy of note; the benefits derived from its use will be beyond calculation.

Edward S. Fessenden,
Edwin P. Stickney, M.D.,
Edwin Mills,
Board of Health.

REPORT

OF THE

SEWER COMMISSIONERS.

The Board of Sewer Commissioners herewith submit a report of the work done under the supervision of the Sewer Department for the year ending Dec. 31, 1898. The past year has witnessed the extension of the Sewerage System of the town by the building of four and forty-three hundredths (4.43) miles of sewers. The first work undertaken was in the district known as Section 5, which comprises Pleasant street from Pleasant-street place to near Lake street, Chapman street and Devereaux street.

To provide an outlet for this section and to avoid deep cutting in making excavations, it was decided to extend the main sewer (which had previously been laid as far as Addison street) through private lands to the right of way owned by the town, from Pleasant street to Spy pond, known as Spring valley; thence through private lands to Chapman street at the junction of Devereaux street, and again from the end of Devereaux street through lands of Gould, Freeman, and Thompson and Young, to Pleasant street and beyond toward Lake street.

A portion of the line described was across the property of Mr. Chas. Hill, where the land was used for argricultural purposes, and to avoid unnecessary loss of crops by delay, the sewer was laid from Spring Valley through Mr. Hill's land early in May, the work being done by town men regu-

larly employed by the Sewer Department. From Mr. Hill's land to Chapman street, Chapman street, Devereaux street and Pleasant street, the construction was by contract with Messrs. H. A. Hanscom & Co., of West Medford, they being the lowest of seven bidders. The contract was satisfactorily fulfilled Sept. 10, 1898.

The section through private lands from Addison street to Spring Valley was built by town men during the months of May and June, and again in September the same men were employed in constructing the sewer through private lands from end of Devereaux street to Pleasant street to connect with the sewers already laid by contract in the lower section of Pleasant street.

Late in the year 1897 a request was made to the Board for sewers in portions of Palmer and Wyman streets, and an extension of the sewer in Irving street. Accordingly during the past summer the sewers were laid, the work being done by the department men. The soil and conditions encountered where the work has been performed by town men was such that the cost of construction by this method compares most favorably with contract prices.

At the annual town-meeting held March 7, 1898, it was voted: "That all moneys that may be received from the Commonwealth, by reason of the taking of any portion of the town sewers under Chapter 520 of the Acts of the year 1897, shall be placed at the disposal of the Sewer Commissioners to be used for the further development of the sewerage system of the town, in the same manner and for the same purposes as authorized in the Arlington Sewer Act, being Chapter 282 of the Acts of 1896."

As provided in Chapter 520, Section 2, of the Acts of 1897, the Metropolitan Sewer Commissioners on Sept. 17, 1898, took formal possession of the town sewers in Decatur

street, private land, Coral street, private land, Franklin street, Lewis avenue, Medford, Chestnut, and Mystic streets, and Massachusetts avenue to Lowell street. The price to be paid the town was $42,400.13, which is the cost of the construction of the sewers mentioned, less the amount received from assessments on the abutting property. On Dec. 31, 1898, $40,000 of this amount had been paid the Town Treasurer. Also, in accordance with this act, the Metropolitan Sewer Commissioners on April 21, 1898, began the construction of the sewer from Massachusetts avenue through Lowell street, private land, Park avenue, and Massachusetts avenue, to the Lexington town line. The building of this sewer provided outlets for sewers in the Arlington Heights District, and enabled the town to proceed with their construction. Upon due consideration of the immediate needs of this locality it was deemed expendient to build sewers in the following named streets, to be known as Section 6 of the Arlington Sewerage system: Park avenue, from Massachusetts avenue to beyond Oakland avenue; Vine street, from Park avenue to Appleton street; Appleton street, from Florence avenue to Park avenue; Wollaston avenue, from Park avenue to beyond Claremont avenue; Hillside avenue, from Wollaston avenue to Prospect avenue; Claremont avenue, from Wollaston avenue to Oakland avenue; Florence avenue, from Hillside avenue to Claremont avenue; Park avenue, from Metropolitan sewer to Lowell street; Lowell street, from Park avenue to Westmoreland avenue and Lowell court; also upon petition, Walnut court, and portions of Walnut street and Robbins road, and in private lands from Lowell street about 700 feet westerly.

The purpose of the sewer through private lands west of Lowell street was to serve the buildings abutting upon Massachusetts avenue. Owing to the deep ledge cut, which

would be required to locate the sewer in Massachusetts avenue, it was advantageous to the town and owners of the property to adopt the location through private lands.

In response to a call for proposals for building Section Six, bids were received from the following-named contractors:

H. A. Hanscom & Co.	W. Medford.
C. E. Trumbull & Co.	Boston.
Long & Little	Leominster.
W. H. Sherman	Providence.
C. G. Craib & Co.	Winthrop.
T. H. Bryne & Co.	Hyde Park.

The contract was awarded to Charles G. Craib & Co., July 27, 1898.

In the construction of the sewers in this section the quantities of ledge and bowlders, together with the large amount of water encountered, has caused considerable delay in the progress of the work.

To provide for the disposal of the water from the territory tributary to the junction of Massachusetts avenue and Park avenue, a system of subdrains was laid beneath the sewers, with an outlet into the brook at Park avenue.

The method of laying the sewer under either sidewalk, as has been done in other sections of the town, was likewise adopted in locating the sewers in Park avenue above Wollaston avenue. By this method not only are the abutters saved the expense of making particular sewer connections in the centre of the street, but also, owing to the width and steep grade of the street, any additional expense to the town in keeping the streets in repair, caused by wash-outs along the lines of the excavations, is avoided.

To provide sewerage for Lowell court, it was necessary to make a cut of fifteen feet at the junction of the court and Lowell street.

By reason of the large quantities of ledge and water and the depth of excavation required at Lowell court, and throughout the entire length of Lowell street, the work was not completed by the first of the year. It is expected that the completion of the work will be accomplished in the next few weeks. Owing to the lateness of the season, the construction of Lowell court is not practical at present, but will be commenced early in the spring.

Upon the request of Mr. S. D. Hicks for a sewer in Lakeview, the Commissioners ordered the same to be constructed and to be included in the contract of Charles G. Craib & Co.

The total expenditures for construction to Jan. 1, 1899, are $184,544.91. Of this amount $33,851.32 has been expended this year. The total length of sewers built and in process of construction by the town is 17.15 miles. In addition there has been 0.85 miles built by the Metropolitan Sewer Commissioners, to which particular sewer connections can be made direct, as with the local sewers. The total assessments levied upon the abutting property are $83,825.89, which does not include the amount to be levied in Section Six at Arlington Heights.

Reference to the annexed tables will give further details in regard to the streets sewered.

Particular Sewers.

All data regarding the connections made with the sewers is contained under this classification. The total number of connections laid to Jan. 1, 1899, is 354, serving 389 buildings and aggregating 23,371 feet, or 4.4 miles. There have

been 115 connections made with the sewers during the year, representing a total length of 7,397 feet, or 1.4 miles, at a cost of $4,491.16, an average of $.61 per linear foot. Included in the above amount is the building of 19 manholes, used for the placing of house-traps, and at angle points in the line of connection; also, miscellaneous plumbing-work and repairs to concrete walks to the amount of $52.54. As in former years, all work incidental to the connections has been done by the town, and no stoppages in the drains have been reported.

Maintenance.

The sewers have been in good condition throughout the year. Careful inspection is maintained and the pipes flushed at frequent intervals. Additional water services have been placed in the end manholes to provide a convenient supply of water for flushing and cleaning purposes. During the year the entire system has been cleaned. It was found necessary to relay a small portion of the trunk line through the land of Mrs. Eliza A. Peck, near Spy pond, caused by a slight settlement of the filled ground through which the sewer was laid. A concrete foundation was placed beneath and around the pipe, and it is expected that there will be no further trouble from this cause. No other repairs have been needed excepting the changing of the grade of several manhole frames to conform with the surface of the streets. The horse and wagon purchased by the Commissioners have been of great assistance in carrying on the work of the department, and without this aid it would have been impossible to execute the details of the work to so good an advantage.

The department is supplied with tools and appliances, and well equipped for the work of the coming year.

To the sewer assessment plans already on file have been added plans of Pleasant street, Chapman and Devereaux streets, Palmer, Warren, and Wyman streets. The surveys for the assessment plans of the Arlington Heights district are nearly completed, and the plans are well under way.

Owing to the unfinished state of the work in Section 6, a detailed account of the cost of construction is impossible at this time.

The Board has continued to have the valuable services of Mr. George A. Kimball, C.E., as consulting engineer.

The new construction and the house connections have been carried on under the immediate charge and supervision of Mr. Robert W. Pond, who fills the position of engineer and superintendent of the entire sewer system of the town. The work of Mr. Pond and his assistants has been very satisfac-factory, all the plans and surveys being made by them at the office in addition to their work out of doors. We are pleased to make mention of the excellent and faithful service rendered by all the men connected with the department.

EDWARD S. FESSENDEN,
WINFIELD S. DURGIN,
WARREN W. RAWSON,
Board of Sewerage Commissioners.

REPORT

OF THE

ARLINGTON PARK COMMISSION.

1898.

At a town-meeting held on the evening of Nov. 8, 1897, it was voted: "That the Park Commission be and hereby is instructed to ascertain what, if anything, can be done in regard to securing the shores of Spy pond for park purposes, and report as to the same at a future town-meeting."

After a thorough consideration of the subject-matter contained in the above vote, and a careful inspection of the premises, the Park Commission, at a town-meeting held on Nov. 15, 1898, made the following report:

In accordance with a vote of the town, at an adjourned town-meeting held on Nov. 8, 1897, your Commission begs to report as follows:

Soon after the instructions were given, your Commission made a personal preliminary study of the entire shores of Spy pond, all together, in company with their engineer, Mr. H. S. Adams, over the entire property and its immediate surroundings, with a view of determining its possibilities, as well as obstacles, if any there should exist, for its development for park or parkway purposes, as contemplated. As a result of this preliminary study, the natural picturesque-

ness and great beauty of this section of our town, so well known to you all, were impressed upon your Commission more favorably than ever, and the great necessity of securing at as early a date as possible these beautiful shores of this charming lake for preservation for all time and for all coming generations, seems absolutely imperative to us.

It is well known to the Commission, as it doubtless is to some of our people, that there has long been, and now is, a strong desire on the part of the Metropolitan Commission to possess the shores of Spy pond, and in connection therewith a parkway across our town, which may form a connecting link between the Mystic Valley parkway and Fresh pond in Cambridge, which, as your Commission understands, will practically complete a continuous connection of the Metropolitian Park System from, and including, the Middlesex Fells reservation and the Blue Hill reservation far beyond Franklin park. In view of this fact, it seems to your Commission that there exists a possibility, if not a real probability, that if the land referred to should be secured by the town for park or parkway purposes, it would be advisable and entirely practicable to turn the same over to the Metropolitan Park Commission as a contribution to the Metropolitan System, provided said Commission will accept the same for care and development ever after.

In contemplation of the possibilities on this line, we found that in determining as to just the amount of land which it would be necessary to take, it was most important that we should know just what amount, in length and breadth, the Metropolitan Park Commission would want for proper and tasteful development in case we should turn the property over to them, or, in other words, in the event that they should outline and take the property themselves.

We wanted the property to be acceptable to them, not only in fact, but in dimensions and form, hence we sought the Metropolitan Park Commission for suggestions and advice, and in reply the Commission very generously offered to make for the Arlington Park Commission a map of proposed takings from their point of view, without expense to your Commission, said map to be from surveys made by the engineer of the Metropolitan Park Commission and the engineer of the Arlington Park Commisssion, coöperating. This map is now in the possession of your Commission and is the property of the town, and it shows just the amount of land, in square feet, which it seems desirable to take on the line of the Metropolitan Park Commission, and the area of land, in square feet, which would be taken from each individual owner, respectively, together with the assessed valuation of same, which we find to be as follows:

One million seven hundred and one thousand four hundred and thirty-seven square feet, at a valuation of $54,152.01.

Your Commission feels that it is proper to say, in connection with this aggregate of $54,152.01, that it will probably be quite largely reduced in the actual acquirement of these lands. All the owners, except one or two, have signified their willingness to either contribute their area, or to sell at a reasonable valuation, and we believe that the contributions will exceed any excess which may be demanded over the assessments. In fact, we have made a careful estimate, which, we think, liberal, which will fall considerably below $50,000.

At this meeting the town passed the following vote:

"That the town appropriate the sum of $45,000 for park purposes, to be raised by the issue of scrip or bonds of the town, to be denominated on the face thereof, "Arlington Park

Loan," payable fifty years from date of issue, and bearing interest payable semi-annually, at a rate not exceeding four per cent. per annum, the same to be expended under the direction of the Board of Park Commissioners of the town for the purchase or taking of lands for park purposes."

It was also voted at this meeting, "That it is the sense of this meeting, and the Board of Park Commissioners for the town is hereby instructed, to expend the appropriation of $45,000 this day made for park purposes, only after consultation with the Metropolitan Park Commission, and the preparation of joint plans with that Board, which shall insure the reservation for park purposes of the shores of Spy pond, and a continuous park or parkway between that pond and the Mystic Valley Parkway; *provided, however*, that it shall not be necessary to include that portion of the shores of Spy pond on the north-easterly side, between the railroad and the pond."

This appropriation of $45,000 required a two-thirds vote, and was passed by a vote of 214 to 72.

The subject-matter of the above vote of the town is now receiving the consideration of your Board. Every indication points to its successful consummation on the lines as set forth by the vote.

During the year just passed there have been built at the Menotomy Rocks park, stone walls, to define the boundaries of the park where none existed previous to the land being taken for park purposes. The old stone walls on the boundary line have been relaid where necessary, and there has been an entrance built from the junction of Jason street and Glen road. The property has been entirely freed from dead wood, fallen trees, and underbrush, thereby materially lessening the liability of fire. It was deemed prudent by your Commission

to provide a man during the summer to see that the park rules were enforced, and in case of necessity to protect women and children in their use of the park. This man was engaged by the Park Commissioner from early in May until the first of December, and it is our purpose to have a man employed for about the same length of time during the coming year.

At an adjourned town-meeting held on the evening of November 29, 1898, the Park Commission recommended that the following vote be passed by the town, and it was voted:

"That on and after this date, until otherwise ordered by the town, no filling or surplus material not required for town purposes be sold or otherwise disposed of, except as hereinafter provided.

"That in the letting of all contracts involving excavations of material, all surplus material from such excavations shall be reserved for the use of the several departments of the town letting such contracts, to be disposed of as hereinafter provided.

"That the Board of Health be, and hereby is, instructed to cause all ashes and like material collected under its supervision, to be deposited, under the direction of the Board of Park Commissioners, on the park lands adjoining Mount Pleasant Cemetery.

"That the Boards of Selectmen, Sewer Commissioners, Water Commissioners, and the Trustees of the Cemeteries, and all other Boards of the town, are hereby instructed to deposit all filling and surplus material under their charge, respectively, not required for other town purposes, upon said park lands under the direction of said Board of Park Commissioners.

"That the several Boards shall keep correct accounts of all filling thus deposited, rendering their accounts to the Selectmen, and that at each November meeting hereafter the Selectmen shall render to the town a full statement of the total number of loads deposited as hereinbefore provided, and ask the town for an appropriation sufficient to meet the charges for filling as rendered by each Board, based on an average price of fifteen cents for each single load and thirty cents for each double load delivered, which amount shall be added to and become a part of the annual appropriation made by said town for said Boards respectively.

"That the Board of Selectmen have charge of the material deposited, so far as to see that the same is levelled off and made safe and convenient for the town teams, as well as for private teams desirous of using the park lands for a dumping-ground.

"That the cost of such care and labor be charged to an appropriation for the Board of Park Commissioners for such purposes."

This motion was carried, and it is the belief of your Board that under the instructions of the above vote the low lands in the park near Mount Pleasant Cemetery will be rapidly filled.

We would say that in the taking of lands for Menotomy Rocks park, settlements have been made with all but three of the owners, and that in the taking of lands for the park near Mount Pleasant Cemetery, settlement has been made with all the owners, and that there remains in the hands of the Commission a balance from the $15,000 appropriated for the purchase of these lands sufficient to settle with the three owners at a fair and equitable valuation.

During the summer, your Commission received a com-

munication from Rev. J. M. Mulcahy, stating that the St. Malachi School Association of Arlington desired to present to the town for park purposes a strip of land 10 feet wide and 155 feet long and running parallel to the entrance of the park near Mount Pleasant Cemetery, from Medford street. Your Commission caused an article to be inserted in the warrant for the town-meeting of Nov. 8, 1898, to see if the town would accept this strip of land, which it did, and it was turned over to us for our care.

Your Commission would recommend that all unexpended balances of appropriations for care and maintenance of public parks, be reappropriated for the same uses for the ensuing year.

Our expenditures have been:

On Account of Purchase of Lands for Park Purposes.

March 17, 1898. In settlement for lands taken for park near Mount Pleasant Cemetery .	$625 00
Nov. 21, 1898. Expert report on valuation of lands taken	50 00
Amount expended to Jan. 1, 1898 . .	8,419 22
Total expended to Jan. 1, 1899 . . .	$9,094 22

For Maintenance and Construction of Existing Parks.

Engineering	$142 60
Printing	6 00
Tool Box	13 50
Tools	9 39
New stone walls, and relaying old . .	615 23
Entrance to Menotomy Rocks Park . .	275 00
Amount carried forward,	$1,061 72

Amount brought forward,		$1,061 72
Cutting dead wood, and clearing Menotomy Rocks Park		266 75
Laying drain under entrance to Menotomy Rocks Park		56 00
Care-taker, Menotomy Rocks Park		295 71
33 days' labor, levelling dump		66 00
		$1,746 18
Received:		
For 393 stone bounds	$157 80	
For 17 cords of old wood	34 00	
		191 80
		$1,554 38
Total expended to Jan. 1, 1898		566 59
Total expended to Jan. 1, 1899		$2,120 97

REPORT

OF THE

TRUSTEES OF THE ROBBINS LIBRARY.

To the Town of Arlington:

The Trustees of the Robbins Library submit their annual report:

We note a continued increase in the number of books and magazines taken out, 46,758 for 1898 as against 45,909 for 1897.

The patronage of the reading-room has fallen off a trifle, the average week-day attendance being seventy-two as against seventy-four in 1897. But the average Sunday attendance has been twenty-eight for 1898 as against twenty for 1897.

Seven hundred and fifty-four bound volumes and magazines have been added during the year, which with allowance for books lost or discarded brings our list to 15,511 Jan. 1, 1899.

Our last report announced that steps had been taken for the issuing of a new catalogue. The first section of this catalogue — a fiction list — was printed in the fall and offered for sale at ten cents a copy, very much less than the actual cost, instead of being generally distributed as heretofore, which was found to be a wasteful method. We have been disappointed at the small number of purchasers, — not more

than 300 — inasmuch as by the renumbering of books of fiction the old catalogues became valueless. This renumbering was done for the purpose of bringing all the books of an author together on the shelves, thereby facilitating the work of the attendants and accommodating the public. The small sale of the new fiction list proves that the majority of our patrons depend upon copies of the same which they find at the library or the card catalogue.

It would be a great benefit to all concerned if this new list were more generally purchased and made use of at home. It is to be hoped that a second section of the catalogue will be issued before the close of the present year.

Two silver-plated pewter platters, the gift of Mr. Wm. R. Cutter, of Woburn, have been placed in the showcase in the reading-room. Mr. Winfield Robbins has added to his already numerous gifts by the bestowal of seventeen volumes. Mention should be made of a series of volumes of "Littell's Living Age" from 1852 to 1896, the gift of Mrs. S. Elizabeth Yerrinton.

Miss S. E. Davis has presented ten volumes of the "Old and New Magazine." The Commonwealth of Massachusetts has sent us Bradford's History "Of Plimoth Plantation." Cambridge and Chelsea have sent city histories. Other books and public documents have been received from the Rev. D. C. Green, D.D., of Japan; Hon. S. W. McCall, Robert C. Winthrop, Jr., James H. Winn, Dr. Ephraim Cutter, Dr. John A. Cutter, Warren Hapgood, and others. Chas. S. Parker & Son have sent us the "Advocate" which continues to publish our lists of new books.

After more than fourteen years of acceptable service, during which she gave increasing satisfaction to the trustees and to the public, Miss Mary L. Dupee sundered her con-

nection with the library, Nov. 30, 1898. The vacancy thus made was filled by the appointment of Miss Nettie E. Baston, who began work December 1.

In the appended statement of the librarian will be found the statistics for 1898, a list of periodicals now taken, and a statement of the hours during which the library and reading-room are open.

Respectfully submitted,

SAMUEL C. BUSHNELL,

REPORT

OF

WATER COMMISSIONERS.

The Water Commissioners herewith submit their Annual Report for the year ending Dec. 31, 1898.

During the year the pipe systems have been extended as required. The Broadway pipe, laid in 1897, has been placed in service from Massachusetts avenue to Tufts street, but the remainder of the pipe cannot be used until the street is graded.

The poor quality of the low-service water last season was due to the compulsory use of the brook necessary to keep up the supply. Frequent rains kept the brook roily and this water had to be mixed with the filtered water because the latter was not sufficient in quantity. The increased demand for water has made it necessary to use the brook much more this year than formerly.

Dead ends have been abolished on the high service at Ashland, Elmore, Tanager, Appleton, and Vine streets and at Oakland, Bartlett, and Wachusett avenues; on the low service at Wyman and Palmer streets. This has very much reduced the complaints due to poor quality of the water.

The town was admitted to the Metropolitan Water District on Jan. 31, 1899.

The various details will be given below under the different headings.

Pipe Extensions and Renewals.

In all there have been laid 50 ft. of 10-in., 6,574.2 ft. 6-in., and 30 ft. of 4-in. pipe, a total of 6,654.2 ft.; 10 hydrants and 19 gates were set.

There have been added this year 83 services, 44 connected with the low and 39 with the high service. There have also been added 15 1½-in. services for flushing sewers.

The following table shows the extensions in detail:

To extend the High Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Ashland street	397.	6	..	1
Bartlett avenue	788.5 30.	6 4	1	1
Cliff street	501.3	6	1	1
Elmore street	361.9	6	1	1
Appleton street and Wachusett avenue	722.8	6	1	2
Oakland avenue	756.3	6	1	1
Tanager street	615.	6	1	1
Vine street	662.	6	1	2

In all 4804.8 ft. of 6-in., and 30 ft. of 4-in. pipe, 7 hydrants, and 10 gates.

To extend the Low Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Glen avenue	318.	6	1	1
Wyman street	529.	6	1	3
Palmer street	31.6	6	..	1
Lake View	485.5	6	1	..

In all 1,364.1 ft. of 6-in. pipe, 3 hydrants, and 5 gates.

To replace cement-lined pipe on the Low Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Broadway.....	50.	10	..	1
Massachusetts avenue	281.	6	..	1
Webster street.....	61.	6	..	1
Franklin street.....	63.3	6	..	1

In all 50 ft. of 10-in. pipe, 405.3 ft. of 6-in. pipe, and 4 gates.

We now have in hand applications, for pipe extensions on the following streets:

Robbins road, Pine Ridge road, Gray street (Atwood avenue), Eastern avenue, Hawthorne avenue, Grand View road, and Forest street. The last mentioned cannot be put in until the street is laid out by the County Commissoners.

To eventually replace cement-line pipe:

Location.	Length, ft.	Size, inches.	Hydrants.	Gates.
Broadway	950	10	2	..
Broadway	1,666	8	..	..

This pipe was laid dry during 1897 in anticipation of a regrading of the street in 1898.

Present Pipe Systems.

Length of main pipe in use Jan. 1, 1899:

LOW SERVICE.

	Size, inches.	Length, feet.		Hydrants.	Gates.
Cement-lined pipe	12	10,991			
"	8	5,321			
"	6	16,396			
"	4	24,484			
Total	.....	——	57,192	84	56
Iron pipe	12	150			
"	10	2,400			
"	8	6,480			
"	6	9,978			
"	4	12,207			
"	.....	——	31,215	67	60
Total both kinds	.....		88,407	151	116
		16,744 miles.			

HIGH SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Iron pipe	12	16,503		
"	10	17,180		
"	8	9,500		
"	6	34,250		
"	4	524		
Total	.....	77,957	158	120
		14.764 miles.		

Total of both services: 31.51 miles of pipe, 309 hydrants, and 236 gates. The pipe laid in Broadway and not used is not included, that replaced has been deducted.

In addition to the above there are 3,436 feet of smaller pipe, 2 in. to $1\frac{1}{4}$ in., which is laid in places where hydrants were not needed and the amount of water desired was small.

The details of the cost of the pipe extensions will be found in the Report of the Superintendent. Records and sketches showing the location of the pipes and connections have been made and arranged in convenient form for use and reference.

Quantity and Quality of Water.

The high-service supply was taken from 23 wells from January 1 to March 1, from 20 wells till April 21, from 23 wells till June 26, from 25 wells till July 1, and from 27 wells for the remainder of the year. The three new wells driven this year have been in constant use.

Analyses of the high-service water from 1897 to the present are given in Table I. The turbidity of the water appears to be increasing, as well as the iron.

The analyses of the low-service water from 1897 to now, given in Table II., show no marked change. The roily condition of the water has previously been accounted for. The use of water for flushing sewers, coupled with the more, efficient and consequently slower filtration due to the new gravel coating on the filter, have together caused the brook to be used for a considerable period in excess of that of last year.

The following table gives dates and times when water for the low-service supply was taken from the various sources:

Date.	Filter.	Filter and Brook.	Filter, Brook, and Meadows.
Jan. 1 to June 18.....	168 days.		
June 18 to June 20	.....	2 days.	
June 20 to June 23	3 days.		
June 23 to July 12..... ...	.....	19 days.	
July 12 to July 13.....	.....	.....	1 day.
July 13 to July 27.....	.....	14 days.	
July 27 to July 29.....	2 days.		
July 29 to Aug. 8	.....	10 days.	
Aug. 8 to Sept. 2.....	25 days.		
Sept. 2 to Oct. 15.....	.....	43 days.	
Oct. 15 to Nov. 24.....	40 days.		
Nov. 24 to Nov. 29.....	.....	5 days.	
Nov. 29 to Dec. 16.....	17 days.		
Dec. 16 to Jan. 1	.....	16 days.	
	255 days	109 days.	1—365.

On account of the large rainfall of the past year no notices restricting the use of water were needed.

Admission to the Metropolitan System.

At an adjourned town-meeting held April 15, 1898, it was voted that the question of increasing, purifying, and protecting the town's water supply be referred to a joint committee consisting of the Board of Selectmen and the Board of Water Commissioners, and they were empowered by this vote to confer with the Metropolitan Water Board and determine what it would cost the town to enter the Metropolitan Water District, and finally to apply to enter the district if they deemed it expedient.

On June 25, '98, a sub-committee met the Metropolitan Water Board and it was agreed to take the application of the town, through its committee, under consideration.

The following official vote, giving the conditions, under which the town would be admitted to the district, was passed by the Metropolitan Water Board on Nov. 12, 1898, and was received Nov. 15, 1898.

"*Voted*, That the sum of money to be paid by the town of Arlington, if admitted to the Metropolitan Water District under the provisions of Chapter 488 of the Acts of 1895, shall be $30,000, for which there would be received a conveyance of the land upon which the iron stand-pipe and its appurtenances stand, together with the stand-pipe, and the pipes and other portions of the works within the stand-pipe lot, so called, and the 10-inch cast-iron water-pipe located in Lexington and extending for a distance of nearly half a mile from the Arlington line to a point opposite the present pumping-station of the Arlington Water-Works, with the right to use the water-pipes of the town for the purpose of conveying water from the proposed pumping-station to the stand-pipe, and for conveying water from the stand-pipe or the proposed pumping-station to the town line between Arlington and Lexington, for which the sum of $15,000 will be allowed in part payment of the sum of $30,000; it being understood that the minimum rates for the use of water shall not be lowered for water to be used for purposes of irrigation."

On careful consideration of the matter the committee deemed it wise to enter the district, and to that end formal application was made to the Metropolitan Water Board on Nov. 26, 1898. This action of the committee was ratified and confirmed at a special town-meeting held Nov. 29, 1898.

The necessary funds, obtained by the issue of bonds and the deed required, were received by the Metropolitan Water Board on Jan. 31, 1899, and on that date the Board passed the necessary vote admitting Arlington to the Metropolitan Water District.

For the present it is proposed to supply water from the reservoir on College hill, Somerville, which is 9 feet lower than our reservoir, by a 20-inch pipe laid in Medford street which leads out of a 24-inch pipe in West Medford, just over the bridge. This pipe will be extended up Massachusetts avenue to the proposed pumping-station which must be located before Jan. 28, 1900. The town pipes will receive water from this main pipe at one or more places.

It is probable that water can be furnished for the low service by July 1, 1899, or earlier. The construction of a pumping-station with its appurtenances will take a longer time, and it is not likely to be completed until the end of the year 1899 or latter.

Under the provisions of the Metropolitan Water Act the town will be credited with a sum equal to $12 for each million gallons of water furnished from its own sources for the supply of the town from the date when admitted to the district.

We believe that when the Metropolitan Water-Works are completed we shall have an ample supply of excellent water, and that in future no restriction will need to be placed on the use of water.

Pumping-Station.

Our pumps and boilers are now in good working condition. The Underwriter emergency pump has been found valuable in enabling repairs and inspections to be made on the main pumping-engine. The plungers on the main pump are found to wear rapidly.

Table III. gives the statistics of the pumping-station for the year 1898, with appended columns at the right giving corresponding statistics for 1896 and 1897. It will be seen

that considerably more water was used last year than in either of the former years, notwithstanding the wet season.

Stand-Pipe.

In May the stand-pipe was cleaned and painted on the inside. The outside was also painted on the two lower courses. All is now in excellent condition.

Reservoir.

The reservoir has received a thorough cleaning at its borders, and the brook has been cleaned and protected by a wire fence on all land controlled by the town.

Uses and Income.

From the catalogue of services and books of the Water Registrar the following table has been prepared, showing the number of fixtures supplied:

	High.	Low.
Number of services	355	1,052
Houses paying maximum charge of $25	163	283

Income, 1898,	$26,888	

Stock.

We have on hand, in addition to small quantities of pipe and fittings of all sizes and necessary tools and fixtures for repairing and carrying on the works, about 3,288 feet 6-in. pipe, 1,536 feet 8-in. pipe, 660 feet 10-in. pipe, and 1,700 feet service-pipe. There are about 50 tons of coal at the Pumping-Station.

Recommendations.

We recommend that the use of present low-service be continued after we are supplied with Metropolitan water for such portion of the town as can be supplied with filtered water until the question of the disposition of our water system is finally disposed of. Also, that all necessary additions be made to our pipe systems, but that all renewals of pipes on Massachusetts avenue unless absolutely required be left until the Metropolitan pipes are laid.

Respectfully submitted,

GEORGE W. LANE,
PETER SCHWAMB,
GEORGE P. WINN,
Water Commissioners.

The color of water is expressed by numbers which increase with the amount of color. Boston water, as drawn from a tap at the Institute of Technology, had an average color in 1896 of 0.49. Other water supplies in the State had an average color of from 0 to 1.34.

All waters containing suspended matter, excepting ground waters which contain a large quantity of iron, are filtered through filter paper before determining the color and residue on evaporation. Occasionally these determinations are also made on the unfiltered water, the results in such cases being indicated by an asterisk.

EXTRACTS FROM RULES OF WATER-WORKS.

SECTION 15. The following rates will be charged annually for the use of water, namely:

Dwelling Houses.

Occupied by one family, for the first faucet . .	$6 00
For each additional faucet, to be used by the same family	2 00
For set tubs not supplied with faucets and filled by hose or other means, and for faucets supplied with portable tubs, the charge will be one-half the regular rates.	
For basins not connected, but convenient to other fittings, the rate will be $1.00 per year.	
Where a house is occupied by more than one family, one faucet only being used for all, for each family	4 00

Where a house is occupied by more than one family, the highest rates will be charged for each family, having the water carried into their part of the house:

Whenever one service-pipe supplies *four* or more tenements, and the rates are paid by the owner, there shall be a discount of ten per cent: *provided, however*, that in no case shall the net charge per tenement be less than thirteen dollars per year.	
For the first bath-tub	$5 00
For each additional bath-tub	3 00

For bath-tubs convenient to faucets, but not connected, the rate will be $3.00 per year.

For the first water-closet	$5 00
For each additional water-closet	3 00
For hopper water-closets	8 00

For vaults flushed with kitchen sink water, in case such vaults are not used in connection with a water-closet, the rate will be $2.00 per year.

When such vaults are used in connection with a water-closet there will be be no extra charge.

Where bath-tubs or water-closets are used by more than one family, for each family	4 00

Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both: *provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than 25 00

Boarding Houses.

For the first faucet	$10 00
Each additional faucet	2 00
Water-closet or bath-tub, when used by boarders	10 00
Each additional bath-tub or water-closet	3 00

Stores, Occupied as Office, Shop, or Similar Purpose.

First faucet	$6 00 to $20 00
For each additional faucet	2 50
For water-closet or urinal	6 00

Markets, Saloons, Restaurants, Workshops.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water	$6 00 to $25 00

Hotels.

For each bed for boarders and lodgers . . .	$3 00
For each bath-tub in a hotel	10 00
For each water-closet in a hotel	10 00

Public Baths.

For one tub in a public bath-house . . .	$10 00
For each additional bath-tub	5 00
For one water-closet in a public bath-house . .	10 00
For each additional water-closet	3 00

Stables.

Private Stables.	For the first horse . . .	$5 00
"	For each additional horse . .	3 00
"	For one cow	2 00
"	For each additional cow . .	1 00
Livery, club, and boarding stables.	For each horse,	3 00
Car and omnibus stables.	For each horse . .	2 00
Truck and cart stables.	For each horse . .	2 00

Provided, that in no case shall any stable be charged less than 5 00

The rates for stables include water for washing carriages without hose; when hose is used $3.00 additional.

Hose.

For hose of not over three-eighths-in. orifice, used for washing windows, sprinkling streets, and watering gardens (and the use of the same shall be limited to two hours per day), not less than, $3 00

Steam Boilers.

For each boiler in use not over twelve hours a day, for each horse-power $6 00

Building Purposes.

The minimum charge for water for building purposes is $3.00. When more than fifty casks of lime or cement are used the charge is six cents per cask of each.

Ornamental Fountains.

Ordinarily used three hours a day for a period of not more than four months a year:

For a jet of 1-16 of an inch	$3 00
" " 1-8 " "	5 00
" " 1-4 " "	8 00

To be cut off at discretion of the Superintendent.

Rebates will be allowed only during such time as the water is shut off, but no rebate will be allowed for a period less than one month. When a house is vacated the owner must notify the Water Registrar to have the water turned off. When the house is again occupied the owner is to give notice to have the water turned on. The charge for shutting off and turning on water in vacated houses is 25 cents for each operation.

SECTION 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners, and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases in their judgment the interests of the town shall require.

B. DELMONT LOCKE,
Water Registrar.

REPORT

OF THE

SUPERINTENDENT OF THE WATER WORKS.

To the Arlington Water Commissioners:

I hereby respectfully submit my Report for the year, ending Dec. 31, 1898.

EXTENSION OF MAIN PIPE.

During the year there has been laid 6,654.2 ft. of pipe: 6,574.2 ft. 6-in. pipe; 50 ft. 10-in. pipe, and 30 ft. 4-in. pipe, and 10 hydrants and 19 gates set, divided as follows:

Glen Avenue.

Labor	$57 00	
318 ft. 6-in. pipe	101 76	
Lead	12 75	
One 6-in. gate and gate box	13 25	
One 5-in. hydrant	28 00	
Specials	7 00	
		$219 76

Cliff Street.

Labor (including rock excavation),	$738 30	
501.3 ft. 6-in. pipe	160 40	
Lead	19 97	
Gate and gate box	13 25	
Hydrant	28 00	
Specials	7 00	
		966 92

Bartlett Avenue.

Labor	$276 00	
788.5 ft. 6 in. pipe	252 32	
30 ft. 4-in. pipe	7 50	
Lead	31 45	
Hydrant	28 00	
Gate and gate box	13 25	
Specials	21 00	
		$629 52

Elmore Street.

Labor	$120 25	
361.9 ft. 6-in. pipe	115 76	
Lead	14 45	
Gate and gate box	13 25	
Hydrant	28 00	
Specials	3 50	
		295 21

Ashland Street.

Labor	$173 12	
397 ft. 6-in. pipe	127 04	
Lead	14 45	
Gate and gate box	13 25	
		327 86

Vine Street.

Labor	$273 50	
662 ft. 6-in. pipe	211 84	
Lead	25 50	
Two gates and gate boxes	26 50	
Hydrant	28 00	
Specials	7 00	
		572 34

Appleton Street & Wachusett Avenue.

Labor	$267 87	
722.8 ft. 6-in. pipe	231 25	
Lead	27 62	
Two gates and gate boxes	26 50	
Hydrant	28 00	
Specials	7 00	
		$588 24

Tanager Street.

Labor	$280 12	
615 ft. 6-in. pipe	196 80	
Lead	22 52	
Gate and gate box	13 25	
Hydrant	28 00	
Specials	3 50	
		544 19

Broadway.

Labor	$30 50	
50 ft. 10-in. pipe	37 50	
Lead	4 25	
Gate, and gate box	24 25	
Special	8 00	
		104 50

Oakland Avenue.

Labor, including rock excavation,	$610 45	
756.3 ft. 6-in. pipe	242 00	
Lead	27 80	
Gate and gate box	13 25	
Hydrant	28 00	
Specials	3 50	
		925 00

Wyman Street.

Labor	$92 50	
529 ft. 6-in. pipe	172 48	
Lead	21 22	
3 gates and gate boxes	39 75	
Hydrant	28 00	
Specials	7 50	
		$361 45

Massachusetts Avenue.

Labor	$82 50	
281 ft. 6-in. pipe	89 92	
Lead	9 77	
Gate and gate box	13 25	
		195 44

Palmer Street.

Labor	$15 25	
31.6 ft. 6-in. pipe	10 08	
Lead	1 70	
Gate and gate box	13 25	
Special	2 00	
		42 28

Lakeview.

Labor	$ 96 25	
485.5 ft. 6-in. pipe	155 36	
Lead	19 12	
Hydrant	28 00	
Specials	4 50	
		303 23

Webster Street.

Labor	$23 12	
61 ft. 6-in. pipe	19 52	
Lead	2 97	
Gate and gate box	13 25	
		58 86

Franklin Street.

Labor	$22 25	
63.3 6-in. pipe	20 24	
Lead	2 97	
Gate and gate box . . .	13 25	
		$58 71
Total amount expended on main pipe .		$6,193 51

Services.

Eighty-three services have been put in during the year, 44 connected with the low and 39 with the high service systems, average for each, $11.20; total cost for new services, $929.60.

Repairs on Services.

Thirty-nine services have been repaired and three transferred from the low to the high service.

The Reservoir and Brook.

They have received the usual attention. The brook has been cleared from Maple street, in Lexington, to the reservoir, and a wire fence built through the pasture land above the Reed farm.

Hydrants and Gates.

There are now 309 hydrants and 236 gates in use, including Broadway as far as Tufts street. Ten hydrants have been added during the year, and two discontinued; 19 gates have been set and two abandoned. The hydrants and gates have been examined late in the season and all found in good condition.

Leaks in Main Pipe.

We have had a number of leaks in the cement-lined pipe and a few in the high service where joints were improperly calked, but no serious leaks have occurred during the year.

Meters.

Two meters have been put in during the year, and one discontinued; the number in use at present is 10; during the summer there are 13.

Shop.

The shop is in good repair. The horses and wagons are in fair condition, as are also the stock and tools.

Stand Pipe.

The stand-pipe was cleaned out and painted inside early in the season and is in good repair.

The Pumping-Station.

There has been no changes at the pumping-station during the year; everything is about the same as at my last report.

Driven Wells.

Early in the season three new wells were driven and connected with the suction main, which was a great relief to the pumps. There are now 28 wells in all, 27 of which are in use.

Recommendations.

In conclusion I would recommend that a new cast-iron pipe be laid on Massachusetts avenue from the Cambridge line to Medford street, as the pipe in that district is in bad condition; in fact, all the cement pipe should be replaced with cast iron at the earliest opportunity.

THOMAS RODEN,
Superintendent.

WATER-WORKS.

TREASURER'S REPORT.

RECEIPTS.

Balance of cash on hand Dec. 31, 1897	$670 88
Amount received during the year 1898, viz.:	
For water rates for 1898	26,888 76
Amount received of Faneuil Hall National Bank, interest on deposits	60 30
Received of C. F. Winship, for grass, 1898	10 00
Received of town, amount loaned	4,000 00
Received interest on the same	51 11
Received of town, on account amount appropriated for maintenance and extension	4,065 00
	$35,746 05

EXPENDITURES.

Running Expenses:

Paid M. J. Drummond, pipe	$2,505 02

REPORT

OF THE

SCHOOL COMMITTEE,

FOR THE YEAR ENDING DEC. 31, 1898.

To the Inhabitants of the Town of Arlington:

The School Committee make the following report for the year ending Dec. 31, 1898:

The special appropriation for the Russell School, including the unexpended balance, will be required for the purposes of the appropriation. The items of the expenditures under this appropriation, and of all other moneys for school purposes, will be found in the Treasurer's Report.

The income for the year of the Russell and Cutter funds has all been used for school purpose, as last year. The total income of the Pratt Fund for the year was $846.69. The amount of this income expended by the Committee is $227.90; leaving a balance of $618.79 to be added to the already large accumulation of income from that fund. The total of this fund is now as follows: Principal, $10,000; accumulated income, $11,813.89. If it were possible, it would certainly be wise, to obtain due authority and sanction to apply the future and the already accumulated income of this fund to broader purposes connected with the High School. The

provisions of Mr. Nathan Pratt's will creating the fund are as follows:

"I give and bequeath to said town of Arlington the further sum of ten thousand dollars, the same to be invested and allowed to accumulate until such time as the said town shall have erected a new building for its High School. At such time the increase of said sum by accumulation, and a portion of the principal not exceeding two thousand dollars, shall be expended in the purchase of engravings, books of engravings illustrative of science, art, history, and biography, books of reference, philosophical apparatus, all for the use and benefit of the pupils of said school, and to be placed or kept in a suitable apartment in the High School building. The unexpended portion of said principal sum shall remain invested, and the income thereof be expended for the purposes above named and expressed, and also in procuring special instruction to the pupils of said school by lectures. Said sum and income shall be expended in the manner foregoing under the direction of the School Committee of said town."

The expenditures for the schools have been very carefully attended to by all the members of the Committee. One result of their watchfulness is shown by the amount of the unexpended balance for the year, $1,280.02. The total unpaid bills will be not far from $100. Certain increased expenditures will be necessary the coming year; namely, for coal and for janitor's services for the new Locke building, and for salaries already or necessarily to be raised. It should, however, be said that there will be a saving of rent and fuel by the abandonment at the end of this current year of Union Hall for school purposes. In this connection the Committee report that it is the unanimous recommendation that the maximum salary of teachers in the primary and grammar grades, not including principals, should be increased

from the present amount, $550, to $600, in order to secure and retain teachers of the best qualifications, and to obtain the highest standard of efficiency and zeal in school-work.

The close of the financial year witnesses the substantial completion of the new Locke School building, the construction of which was authorized by the vote of the town passed at an adjourned meeting, March 28, 1898. This is a commodious eight-room building of brick having a substantial and imposing appearance, supplied with the best modern appliances for heating and ventilation, and thoroughly well lighted. The old wooden building was moved to the front of the school lot, and fitted for temporary occupancy during the process of construction of the new building. The use of the old building ceases with the current year, and actual occupancy of the new building for the schools will take place at the beginning of the year 1899, under a special arrangement between the building committee and the builder. Five rooms will be in immediate use, and these have all been fitted up with new furniture out of the total appropriation made for the building and its equipment. The town now has three buildings, the Locke, Crosby, and Russell buildings, of excellent quality and fitness for school uses, with the exception that a portion of the Russell School furniture requires renewal to make it conform to modern health demands.

When the town erects its next school building it will be advisable to consider the matter of accommodation for ninth-grade scholars, for, with the hoped-for-growth of the town, and even with its present rate of growth, the High School building will before long be inadequate without an enlargement for the handling of our upper five grades.

The town has never yet provided for a thorough or satis-

factory business course in the High School. Extra expense for teachers would probably attend such action, and it was partly with this in mind that the preceding remark was made about applying the income of the Pratt Fund to broader purposes. There is in this school a two years' course, which is the first two years of the general course, and includes bookkeeping for twenty weeks. The Committee are already giving the subject-matter of a business course their attention, and are ready to give to it all the possible attention that may be required of them. It is the purpose of the Committee to have the courses in the High School printed at as early a date as practicable. But before printing them, all matters relating to the courses and the requirements upon and work of pupils will be carefully considered.

Salaries in this school have required some adjustment. Miss M. Cady Roberts' salary has been raised to $750; Miss Anna J. Newton's to $900; Miss Susie L. Austin's $700; and the salaries of both the ninth grade teachers to $600. The corps of teachers remains the same, except that Miss Angelina L. Weeks has been elected to fill the vacancy caused by the resignation of Miss Grace H. Perkins, who was a very capable and highly esteemed teacher.

The late Samuel C. Buckman made the following provisions with reference to the High School in his will:

"I give to my executors the sum of five hundred dollars ($500) in trust to be expended by them in their discretion for the purchase of scientific or reference books to be placed in the library of the High School of Arlington, for the use of the scholars of said school. And also for the purchase of pictures and articles of ornament for the rooms in the new High School building."

This bequest has been accepted by the town. The High

School has received under it a complete set of thirty volumes, costing $103.00, edited by Charles Dudley Warner and entitled "Library of the World's Best Literature."

The Committee are informed that the balance of the fund is ready to be expended at any time when the proper subjects for its expenditure have been determined upon.

Mr. Horace A. Freeman, principal of the Russell School, tendered his resignation April 21, to take effect at the close of the last spring term. The Committee accepted his resignation, recognizing and acknowledging his interest in and devotion to the cause of education during the entire period of his service in the schools. This service began in the summer of 1879, when he was elected master of the Cutter School. He continued as master of that school until Nov. 20, 1882, when he was elected principal of the Russell School. Mr. Frank A. Sutcliffe, the present principal of this school, was appointed July 1, and was given supervisory powers over the other Grammar Schools, with a salary of $1,800. The Committee feel that, situated as the town is, with ready means of connection between the schools, and having the ninth grade in the High School building, one person may perform at the same time the duties of a superintendent and the duties of principal of the Russell School. The plan adopted is working well. Confidence is already felt in the choice and arrangement made; and every indication seems to point to entirely satisfactory results, although only four months of the school year have passed. Miss Cora B. Cook resigned as teacher in this school in June and her place was filled by transferring Miss Maude E. Gilman from the Crosby School. It was necessary to divide Grade II. last September, and Miss Helen E. True was appointed a teacher of one of the two divisions of that grade, at a salary of $500.

Miss Scanlan, the principal of the Crosby School, was transferred from the third grade to the highest grades in the school, and her salary fixed at $750. She now has charge of Grades VI. and VII. Miss Louise M. Wooster was appointed to Grade III., at a salary of $500. Miss Virginia Gray, a successful teacher of Grade I., resigned in June. It has not yet been necessary to elect an additional teacher.

Miss Elizabeth DeBlois, of the Cutter School, resigned in June, after a long period of conscientious and faithful service. Miss Antoinette L. Canfield was transferred to Grade II. Miss Josephine Davidson was appointed to Grade I., at a salary of $450. Miss Mabel W. Fuller resigned December 9, and Miss Mabelle E. Porter was appointed in her place, at a salary of $600.

No change has been made in the teachers of the Locke School. The salary of the principal, Miss Martha Wentworth, has been raised to $750.

In 1885, by Chapter 332 of the Acts of that year, the Legislature introduced a new subject into the school course. The terms of that act are as follows: "Physiology and hygiene, which, in both divisions of the subject, shall include special instruction as to the effects of alcoholic drinks, stimulants, and narcotics on the human system, shall be taught as a regular branch of duty to all pupils in all schools supported wholly or in part by public money, except special schools maintained solely for instruction in particular branches, such as drawing, mechanics, art, and like studies."

This law seems to be very explicit in its direction to committees and municipalities. It appears to be in force at present. The last Legislature, however, has treated the

new subject like other school subjects, and has not repeated the injunction contained in the original Act, that it should be taught as a regular branch of study to "all pupils in all schools."

The subjects required to be taught, as stated in the New School Act of 1898, are: "the English language and grammar, geography, arithmetic, drawing, the history of the United States, physiology and hygiene, including special instruction as to the effect of alcoholic drinks, and of stimulants and narcotics on the human system, and good behavior."

There is no possible difference among the Committee as to the good sense of having a new subject taught in its broadest significance, but the question will always arise on careful thought as to the extent and method of the teaching, and as to the age of the pupil when specific instruction shall be given by regularly assigned recitations. They will probably agree upon a method of treatment of the subject which shall provide for oral talks or instruction the first year, for instruction the second and third years by the teacher reading to the pupils from approved books, by instruction the fifth, sixth, and seventh years by the pupils reading at sight from other approved books, and by instruction the eighth year through the medium of regularly assigned daily lessons using an approved book as text-book, with due provisions that shall guard against any morbid state of mind that may arise through a too careful scrutiny, or through too long consideration of the internal structure and organs of the body, until the age of the pupil becomes such that the subject can be in no way harmful to him.

William H. H. Tuttle,
Chairman.

STATISTICS.

The table at the end of this report indicates 1,698 pupils enrolled during the year, 1,259.9 average membership, 1,171.4 average attendance, and 92.7 per cent. attendance. In 1897 the record was 1,437 enrolled, 1,225 average membership, 1,138 average attendance, and 92 per cent. attendance. The number of different pupils attending school in town during the year 1898 appears to be 261 more than in 1897, and 357 more than in 1896. The difference shows considerable increase in school population and further growth on the part of the town.

At the end of the year, Dec. 23, 1898, there were 1,298 pupils, divided as follows:

High School, 117; Grade IX., 90, — making 207 in the High School Building. A year ago it was 191.

Russell School, 440. A year ago it was 431.

Crosby School, 260. A year ago, 243.

Cutter School, 193. A year ago, 190.

Locke School, 198. A year ago, 182.

The per cent. of attendance for the year is 92.7 per cent.

REPORT OF THE SELECTMEN.

The Selectmen submit the following report for the year ending December 30, 1899.

Wherever edgestones and paved gutters have been placed on streets with steep grades the results have been very satisfactory.

Crosswalks have been laid in a number of places where we considered they were most needed.

Under-drains have been laid in several streets, and this work should be continued, as it will result in a saving in cost of repairs after heavy rains and rapid melting of snow. Although under-drains have been placed in Broadway, it may be necessary to extend them and build additional catch-basins when the street is rebuilt. The whole appropriation has not been expended.

For a more detailed account of the work done on the highways we refer to the report of the Superintendent of Streets.

The location granted in 1898 to the Lexington Street Railway Company for a track on Massachusetts avenue from the car house of the Boston Elevated Railway Company to the Lexington line expired by limitation.

A similar location has been granted the Lexington and Boston Street Railway Company. The track is nearly built, and it is expected that the cars will be running early in the spring. The material removed from the street was teamed to Forest street, and the stone crusher at the expense of the company.

The New England Telephone and Telegraph Company has laid a line of conduits in Massachusetts avenue from the Cambridge line to Park avenue. One conduit is reserved for the wires belonging to the town. The surplus material was teamed to Cemetery street at the expense of the company.

The Metropolitan Water Board has laid a supply pipe the entire length of Medford street; in Massachusetts avenue, from Medford street to Brattle street, and in Brattle street, from Massachusetts avenue to the pumping station.

The Arlington Gas Light Company has laid 2,000 feet of new pipe in Pleasant street.

Three thousand seven hundred twenty-five and six tenths feet of land have been sold from the lot on Mystic street to Ella J. Langley at 5 cents per foot.

Issues of bonds by the Treasurer have been approved as follows:—

$15,000, Arlington Water Loan.
29,000, Locke School Loan.
52,000, Town House Site Loan.
7,000, Arlington Park Loan.

After the contracts for watering the streets had been made, we were petitioned to have other streets watered which we were unable to do, as the teams were covering all the ground possible and the appropriation would not permit the addition of another team. If the street watering is to be extended provision must be made for an additional team.

STREET SIGNS.

Signs have been placed on the following streets: Court, Russell, Water, Russell terrace, Winslow, Prescott (2), Franklin (2), Lewis avenue, Irving (2), Mill, Summer, Bow, Lowell, Park avenue (2), Vine (2), Claremont avenue, Oakland avenue, Hillside avenue (3), Ashland (2), Cliff (2), Linden, Elmore (2); all the sign posts have been painted.

POLICE DEPARTMENT.

One officer has been added to the force. The other members are the same as last year. For a detailed report of the work performed we refer you to the report of the Chief of Police.

FIRE DEPARTMENT.

The Fire Department maintains a high state of efficiency, the engineers, officers and men working harmoniously for that purpose. All alarms have been responded to with great promptness and intelligent service rendered. While we do not wish to make any comparisons, we cannot help calling attention to the fact that the company at the lower end of the town, although poorly equipped with apparatus and having poor and inconvenient quarters, are willing to serve and to respond to alarms promptly and perform good service, as was shown at the fire on Lake street July 4th.

The engineers have so managed the financial affairs that although they have placed a new heating apparatus in the hose house on Broadway at an expense of $410, they still have a balance left of their appropriation.

On August 22d a number of fire alarm boxes were burned out, supposed to have been caused by the Arlington and Winchester Street Railway. The company was notified and the new management met this Board, and this matter and also another burn-out which occurred last year were both satisfactorily settled. The town is to be congratulated on having so efficient a Fire Department.

STREET LIGHTS.

A contract for three years, from April 1st, 1899, has been made with the Somerville Electric Light Company, at $11,500 per year, for 93 arc lights of 1,200 nominal candle power, and 166 incandescent lights of 32 candle power. Additional arcs to be $80 and incandescents $25 per year each. This makes a change in the incandescent lights from 25 candle power to 32 candle power. Reflectors have been placed over the incandescent lights. During the year 5 incandescents have been taken out and 9 arcs and 24 incandescents added.

The present number of lights is 163 incandescents and 98 arcs.

The apparatus for testing the electric current is in process of construction. During the year the following lights have been added:

4	Incandescents	on	Forest street.
3	"	"	Tanager street.
4	"	"	North Union street.
2	"	"	River street.
5	"	"	Park street.
2	"	"	Tufts street.
1	"	"	Chestnut street.
1	"	"	Massachusetts avenue, at Central street.
2	"	"	Franklin street.
1	Arc	"	Decatur, corner N. Union street.
1	"	"	Decatur, corner River street.
1	"	"	Appleton, corner Vine street.
1	"	"	Vine, corner Sutherland road.
1	"	"	Lowell, corner Westmoreland avenue.
1	"	"	Crescent Hill avenue, corner Westmoreland avenue.
1	"	"	Park avenue, corner Oakland avenue.
1	"	"	Park avenue, corner Appleton street.
1	"	"	Park avenue, corner Florence avenue.

This will call for an expenditure of $11,785.60 for 1900.

ALMSHOUSE.

At the expiration of the term of Mrs. B. F. Durgin as superintendent, Mr. John B. Tay was appointed to the position, and he has given perfect satisfaction. During the year two persons have been admitted, two inmates have died, one was sent to the

State Almshouse, where he died, and one has gone away. There are now five inmates, four males and one female.

OUTSIDE POOR.

The expenditures in this department have been quite large, and much work has been required in looking up the settlements of persons who have located here and applied for aid.

SHADE TREES.

The appropriation has been expended in trimming trees, mostly on Massachusetts avenue. A few trees have been set, to replace those which have died during the year. A number of the large trees on Pleasant street died during the summer, and the cause has been attributed to escaping gas.

It will be necessary to elect a Tree Warden the coming year, the same being required by Chapter 330 of the Acts of 1899.

We recommend an appropriation for trimming trees the present year.

CONTRACTS FOR COAL.

The contract for coal was awarded to the Peirce & Winn Company, at the following prices:

Honey Brook Egg	$5.00
Furnace	4.25
Georges Creek Cumberland	3.50
Egg	4.50
Stove	4.75

BOARD OF SURVEY.

The Board of Selectmen, acting as the Board of Survey, has laid out Hawthorne avenue from Robbins road to Park avenue.

Hearings have been given on the laying out of Peirce, Clark and Locke streets on the land of Warren A. Peirce, also on Broadway and Summer street.

EDWIN S. FARMER,
GEORGE I. DOE,
WALTER CROSBY,
Selectmen.

REPORT

OF THE

SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

GENTLEMEN: I submit to you my annual report for the year ending December 30, 1899.

Winter setting in unusually early, the fall cleaning of streets was not finished, and this was the first work of the season. The scrapings of the streets were teamed to Cemetery street and the Park.

APPLETON STREET.

From Massachusetts avenue to Oakland avenue has required considerable attention. The great amount of water from Oakland avenue and Ashland street overflowing the gutters, caused the sides of the street to wash during every heavy rain. There should be a 15-inch drain from Oakland avenue to Massachusetts avenue, connecting with the avenue drain carrying the water to the brook at Forest street.

BROADWAY.

There has been a 20-inch drain laid from Alewife brook to Winter street, and a 15-inch from Winter street to River street with manholes every 300 feet to get at the drain in case of stoppage. A 12-inch pipe has been laid across the street at Marathon, Cleveland and Winter streets, and catch-basins each side of Broadway at these streets.

A catch-basin has been made at North Union street and five near the junction of Broadway and River street, connected with the main drain by a 12-inch pipe. The drain from Franklin street that was laid along Broadway last year has been extended from Wyman street towards Tufts street 600 feet, with four catch-basins, and a 12-inch pipe laid across the street at two different places, connecting the catch-basins with the main drain. This makes the system of drainage complete on this street, except perhaps a few catch-basins to be added when the street is graded. There has been quite an amount expended in patching the worst places, and I hope the town will put this street in good condition the coming season; for it is a disgrace to the town in its present condition. Amount appropriated for drainage, $4,300; amount expended, $3,568.53.

CHESTNUT STREET.

Has been widened to 50 feet by order of the County Commissioners. A 12-inch drain has been laid from Medford street, in front of W. W. Ranson's, to the large drain at Cemetery street, with four catch-basins connected to the drain by a 10-inch pipe. The street has been graded and a heavy coat of crushed stone put on, and well rolled and covered with screened blue gravel.

The sidewalks have been graded and coated with stone-dust, except in front of the church. This part was not completed as there was going to be a change made at the church, and it was thought better to wait until the repairs on the church were completed.

CEMETERY STREET.

There has been a 24-inch pipe laid from Chestnut street (the terminus of the Massachusetts avenue drain from the centre of the town) to within about 50 feet of the cemetery line.

As Cemetery street is across the meadow with from 10 to 40 feet of mud, there had to be piles driven to a solid foundation.

cross-pieces bolted to the piles and 6-inch x 8-inch hard-pine stringers laid upon the cross-pieces, and then the pipe on them; then cross-pieces bolted to the piles over the pipe with hard pine-pieces, sawed corner ways, placed on the stringers beside the pipe to keep them in place. A part of the ashes and street scrapings have been teamed to this street to make the fill. As the street keeps settling it will require more filling to bring it to grade.

Amount appropriated, $2,230; amount expended, $1,630.90.

CEDAR STREET.

Has been gravelled its entire length.

FOREST STREET.

For a distance of 1,500 feet from Mr. Wanamaker's towards the Winchester line, except a piece of ledge in front of Mr. Jardine's, which it was thought better to let remain until winter, when it could be blasted and carted to the crusher at better advantage, has been widened to 40 feet, as laid out by the County Commissioners. It has been graded, a heavy coat of gravel put on and then coated over with fine crushed stone, well rolled and then coated over with screened blue gravel. The gutters for a distance of 1,000 feet have been paved on both sides.

The sidewalk on the east side has been graded and coated over with fine gravel.

GRAY STREET.

From Jason street to Bartlett avenue has been graded and coated over with fine crushed stone, rolled and then coated over with stone-dust. The sidewalks between these streets have been graded and coated over with stone-dust.

JASON STREET.

From Irving street to Gray was left in a rough condition after putting in the sewer. The surface was picked over, the large

stones picked off high places, levelled into the low ones, a coat of fine crushed stone put on, rolled and then coated over with stone-dust.

LOWELL STREET.

From Massachusetts avenue to near the reservoir has been patched in many places. The sidewalk from Westmoreland avenue to Mrs. Lewis' line, on the west side, has been coated over with stone-dust.

MASSACHUSETTS AVENUE.

From the railroad crossing to within 1,000 feet of the Cambridge line on the southwest side has been coated over with crushed stone. The surface was first picked with the steam-roller, then picked over with hand-picks, the large stones raked off the surface, evened, then a heavy coat of crushed stone put on, well rolled, then coated over with screened blue gravel. Between the railroad and Appleton street, on both sides, the avenue is getting rough. Next season it will have to be surfaced over with crushed stone.

NORTH UNION STREET.

There has been a 24-inch drain laid across the street at the low place near Decatur street with a catch-basin on each side. The ditch has been cleaned out and lowered from this street to the river to properly drain the street.

OAKLAND AVENUE.

Has been gravelled in a few places, the loose stone raked off and the walk on the north side graded and coated with stone-dust. There has been but little done at the Heights, except raking off the loose stones and filling the washed places after a heavy rain. The Heights shows the wisdom of putting in the Park avenue

drain and the paving of the gutters on some of the worst hills. There has been stone-dust put on portions of Park avenue walks, Florence avenue, Ashland street and Appleton street.

The good work of paving gutters should be kept up until the hilly streets are all paved.

PINE STREET.

Has been widened and put in a good condition. A heavy retaining wall has been built on the southwest side about 450 feet long, 4½ feet thick at the bottom and 2 feet thick at the top, and an average height of 8 feet containing about 480 perch of stone. A railing has been put along the top of the wall.

The street has been graded, a coat of fine crushed stone put on and well rolled, and then covered with screened blue gravel. The sidewalks graded on both sides and the southeast sidewalk covered with fine gravel.

A gutter on both sides of the street 4½ feet wide has been paved its entire length.

Appropriation, $2,600; expended, $2,600.

PLEASANT STREET.

From Massachusetts avenue to Swan street has been coated with fine crushed stone and gravel. The sidewalk on the south side concreted from Swan street to Spring valley, except in front of a few residences that had been concreted before.

ROBBINS ROAD.

There has been 1,200 feet of edgestone laid on the north side and the gutter paved along the edgestone. The street has been crowned with gravel and the walk graded on the north side and coated with stone-dust part of the way.

SWAN STREET.

Has been graded and coated over with fine crushed stone, rolled and covered with screened blue gravel. The walks filled to grade and coated with stone-dust.

WALNUT STREET.

A drain pipe has been laid from Dennett street to and across Massachusetts avenue through the Highland Hose House yard to the pond, from the pond to Walnut court. The pipe was 20-inch from the pond to Walnut court and 15-inch from there to the top of the hill, with six manholes and nine catch-basins connected to the main drain with 12-inch pipe. An edgestone has been laid on both sides, except in front of Thomas Higgins', where he has a concreted walk and gutter. The gutters were paved on both sides. The surplus gravel was used in crowning the street and filling the sidewalk.

BRIDGES.

Brattle street bridge has been rebuilt, the channel lowered and slightly enlarged. The centre of River street bridge has been covered over with 2-inch plank. It was thought best not to re-plank it, as it is uncertain what will be done to this bridge in case the Metropolitan Boulevard crosses the river.

EDGESTONES.

There has been 5,000 feet of edgestones laid, about half put in under the betterment act.

SIDEWALKS.

There has been 2,574 yards of concrete laid and 2,998 yards of concrete top-coated. For amount expended on sidewalks see Treasurer's report.

CROSSWALKS.

Have been put in across the following streets: Massachusetts avenue at Tufts street; half across the avenue in front of G. A. R. Hall, the other half being already laid; Massachusetts avenue at Jason street (2); at Mount Vernon street; across Medford street in front of W. W. Ranson's; across Chestnut street from Medford street; across Mystic street at its junction with Massachusetts avenue; one on Massachusetts avenue at Whittemore street; one on Massachusetts avenue at Swan's block; one half way across, and one on Pleasant at Wellington street, at a cost of $2.25 a yard.

CRUSHER.

There should be some repairs done this year; the oscillator should be planed and the surface where the chill rests has become rough, causing the chills to break. There is about the usual amount of stone on hand ready to crush, and there has been 1,200 ton of stone blasted from the ledge and broken up ready for the crusher. Cost of blasting and breaking, 50 cents per ton.

STEAM-ROLLER.

The driving wheels have worn quite thin and are liable to break at any time; there should be another set purchased so as to be ready when the old ones break.

WATERING STREETS.

It has required four double teams and one single team to water the streets this past season. One double and one single team was furnished by the Highway Department and the other three let out by contract.

OFFAL AND ASHES.

Have been removed by the Highway Department the same as last year. There has been one new offal cart and one new ash cart bought for the Health Department this year.

TEAMS AND TOOLS.

One double and two single carts will require new bodies and the single watering cart will need a new tank. All the carts want slight repairs and will need painting. The other tools are in good condition. There are at present 14 horses, 5 double and 4 single road carts, steam-roller, 1 two-horse roller, 1 jigger, 1 road machine, 1 hay wagon, 2 ash carts, 2 offal wagons, 4 two-horse watering-carts and one single watering-cart, 4 double sleds, 2 pungs and 9 snow-plows.

Respectfully submitted,

SAMUEL E. KIMBALL,

Superintendent of Streets.

TREASURER'S REPORT.

EXPENDITURES.

HIGHWAYS AND BRIDGES.

Paid Samuel E. Kimball, Supt., 11 months	$1,375	00
Roscoe C. Kimball, Acting Supt.	140	63
Laborers	20,299	18
Sundry persons for stone	1,294	84
Michael Kelly, stone and labor	312	57

Default warrant	1
Delirium tremens	2
Disorderly conduct	9
Embezzlement	1

Forgery	1
Larceny	15
Liquor nuisance	10
Malicious mischief	3
Insane	1
Trespass	12
Tramps	2
Walking on R. R. tracks	1
Violation town by-law	1
Violation of the game-law	1
Violation of park rules	1
Stealing a ride	1
Total	188

LODGERS.

Whole number of lodgers	586
Males	582
Females	4
Adults	582
Minors	4
White	584
Colored	2
Foreign born	316
American born	270

MISCELLANEOUS DUTIES PERFORMED.

Accidents reported	36
Buildings found open and secured	58
Cases investigated	45
Contagious diseases reported	45
Dead bodies cared for	1
Dead animals found	5
Defective hydrants	2
Defective streets and sidewalks	31

Defective water-pipes	12
Defective wires (electric and telephone)	64
Dogs killed	22
Disturbances suppressed	6
Fire alarms	18
Fires extinguished without alarm	8
Lanterns hung in dangerous places	127
Notices for Board of Health	15
Notices to delinquent dog owners	125
Lost children cared for	9
Sick and injured persons cared for	10
Stray teams cared for	23
Street obstructions removed	42
Search warrants served	7

Number of days in attendance at Third District Court	230
Number of person paying fines	91
Committed for non-payment of fines	46
Discharged	6
Placed on file	25
Probation	1
State farm	1
Insane Hospital	1
To grand jury	13
Turned over to other officers	2
Cases continued	2
Total	188

POLICE ORGANIZATION.

Headquarters, Town Hall Building.

Alonzo S. Harriman, *Chief*.

PATROLMEN.

Garritt Barry,	Garret J. Cody,
John Duffy,	Daniel M. Hooley,
Andrew Irwin,	Fred E. Smith,
James E. Whitten,	Charles H. Woods.

The chief and two patrolmen are on duty in the daytime; during the night, six patrolmen are on duty.

$8,400 police appropriation and court fees.

For a detailed account of all expenses, see Town Treasurer's report.

APPOINTMENT.

During the past year there has been an increase of one man to the force. April 1st, Fred E. Smith was appointed as patrolman, and assigned to night duty.

NO-LICENSE LAW.

A constant effort has been made during the year to suppress the illegal sales of intoxicating liquor with very gratifying results, ten persons having been summoned into court for liquor nuisances. Eight were fined, one placed on file, and one discharged.

RECOMMENDATIONS.

I would respectfully recommend that another telephone box be connected with the police line, to be located at the corner of Warren and Park streets.

I would also recommend that some kind of a wagon be procured, to be used as a patrol wagon, and general use for this department.

CONCLUSION.

In concluding this report, I desire to thank your honorable board and all others who have so kindly assisted me in the performance of my duties.

I would also thank the members of the department for the prompt and efficient manner in which they have discharged their several duties.

Respectfully submitted,

ALONZO S. HARRIMAN,

Chief of Police.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Honorable Board of Selectmen:

GENTLEMEN—I herewith submit my annual report for the year ending December 31, 1899, offering suggestions and recommendations for your consideration.

Fortunately we have had no large fires with which to contend the past year. No fire getting beyond the building in which it started, showing the promptness of the firemen to respond.

FIRE AND ALARMS.

The department has been called out to thirty-one alarms, eighteen of which were bell alarm and thirteen still or telephone calls; this shows the advantage of the telephone in the hose-houses.

Date, 1899.	Box.		Value of Building.	Insurance	Value of Contents.	Insurance	Loss on Building.	Loss of Contents.
Jan. 7	35	W. G. Peck, house	$7,500	$6,500	$2,000	$1,500	....	....

Feb. 13	52	W. J. Hancock, second alarm	....	....	....	....	....	....
Apr. 2	26	Mrs. E. E. Tappan, pig house	300	200	400	...	150	300
Apr. 18	52	Grass fire, Crescent Hill						
Apr. 19	46	Grass fire, David Irwin						
Apr. 28		Still alarm, Devil's den						
Apr. 28		Still alarm, Wyman's meadow						
Apr. 29		Still alarm, H. McManus' woods						
May 14		Still alarm, grass fires, Niles estate						
June 4	54	R. W. Barr, barn	300	300	300	200	300	200
June 12	39	Robbins estate (town)	8,000	6,000	1,500	1,500	20	....
June 19		Still alarm, grass fire						
July 4	36	C. Caterino, fruit store	1,000	500	200	400	40	138
July 4	36	Mrs. A. G. Peck, Boat house	100	....	....	....	20	....
July 4	15	R. J. Hardy's barn	2,000	1,000	1,000	500	795	200
July 4		Still alarm, grass fire, A. B. C.						
July 20	26	W. W. Rawson's head house	3,000	1,500	1,500	1,500	1,200	1,100
Aug. 1	39	Puttee estate, owned by town	1,000	600	500	....	....	....
Aug. 5	36	A. Bowman, tailor	4,000	2,000	500	500	27	132.50
Aug. 19		Still alarm, dump on Mystic st						
Aug. 22		Still alarm, chemical works						
Aug. 22		Still alarm, Post Office block						
Aug. 22		Still alarm, Chas. Gott house						
Aug. 22		Dr. Dennett's house	3,300	3,200	1,500	1,000	40	....
Aug. 25	54	Mrs. Julia Kohler	2,500	2,000	1,500	1,000	....	....
Aug. 29	46	Sarah Hooley house	1,000	700	500	....	26	5
Sept. 7		Still alarm, P. Breen						
Oct. 25	23	F. Bowman, slaughter house	2,500	2,000	1,000	....	2,000	200
Oct. 26	23	F. Bowman, slaughter house	....	....	....	....	....	....
Dec.	6	Still alarm, A. F. Brooks house	1,900	1,500	1,000	700	...	....

The most serious fire occurred July 20th, at which W. W. Rawson's head-house was destroyed. This was owing to the inflammable condition of the building and the time the building was burning before the alarm was sounded.

MEMBERSHIP.

The membership remains as in last year's report, very few having asked for discharge.

APPARATUS.

The apparatus is as last year. Hose Wagon 3 received a coat of varnish, but further than this but little has been expended. Hose Wagon 2 should go through the repair shop, also Hose Wagon 1.

BUILDINGS.

No extensive repairs have been made other than the keeping up of the ordinary wear and tear.

A new hot-water heater has been placed in Hose 3 house, and I think hereafter there will be no trouble in regard to heating the building.

HOSE.

We have 5,500 feet in fair condition, no new hose having been purchased for two years. Some provision for this should be made at an early period, as it is very important that plenty of good hose be always ready for use.

FIRE ALARM.

This branch of the system is in fair condition. One serious burn-out occurred August 22, caused by the breaking of the guy wire on the Arlington and Winchester Street R. R.

FIREMAN'S RELIEF ASSOCIATION.

The Association is in good condition. We have paid more for sickness this year than ever before, and it is of great benefit to the members. The active members, in case of sickness, receive $5 per week and the past members $3.

HORSES.

A new pair of horses has been purchased for the Truck, which, when broken in, will do good service.

The old horses will be placed in Hose 1. The horses this year have consumed:

866 bushel of oats, amounting to	$319 70
33,009 pounds of hay, amounting to	290 14
4,388 pounds of straw, amounting to	32 63
Total	$642 47

Making a cost of each horse per week, 1.544.

SUGGESTIONS.

Again I suggest that the citizens acquaint themselves with the location of the nearest fire alarm box and the workings of the same. Also, that a few more boxes be placed in different sections of the town.

I would also suggest that a permanent man be employed as a relief. Each permanent man has certain days off each month.

Also would I suggest, that a piece of land be leased and a cheap shed be erected for the storage of the fire department property; and also, that some exercise wagons be purchased.

A storage battery for the use of the fire alarm would be of great saving to the town, also a repeater, and the alarms divided into four or more circuit would be of great benefit.

APPROPRIATION.

To meet the expenses of the ensuing year, I would recommend the sum of $8,500.

CONCLUSION.

I wish to express my thanks to your Honorable Board for the courteous and gentlemanly manner in which you have received me in my official duty. To my engineers, my thanks for the hearty co-operation in all fire matters. To the officers and members, my thanks for the cheerful manner with which they have performed their duty, and for all interest shown; and to the citizens, my thanks for the kind words and interest given to the fire department.

Respectfully submitted,

CHARLES GOTT,

Chief Fire Department.

REPORT

OF THE

SCHOOL COMMITTEE.

FOR THE YEAR ENDING DEC. 31, 1899.

To the Inhabitants of the Town of Arlington:

The School Committee make the following report for the year ending December 31st, 1899.

The total appropriation for the year has been expended, together with the income for the year of the Cutter and Russell funds. It was anticipated at the beginning of the year, that an additional appropriation might be required at the November meeting. This was avoided by the use of a part, $270.00, of the accumulated income of the Cutter fund, leaving the balance of that income about $320.12. The income of the Pratt fund has been used to the extent of $161.25 only. School expenses have now so materially increased that a larger appropriation than usual will be required for the coming year. Our School accommodations are, with the exception of the Cutter building, very satisfactory, and practically all that can be desired. The school expenditures appear in the Treasurer's report.

The dedicatory exercises of the new Locke building took place early in the year, the Secretary of the State Board of Education delivering the address.

On account of the large number of pupils in Grade I. of the Cutter School during the spring term of 1899, Mrs. Helen Learned was employed as assistant for that term. The same conditions at the Crosby School necessitated the opening of an ad-

ditional primary room there, during the spring term. Miss Esther G. Babson was the teacher. Miss Eulalie L. Herald from Holbrook was engaged to act as a substitute for one year in Grades VI. and VII. of the Locke School, a vacancy caused by detailing Miss Sara N. Phelps to supervise the music. Miss Florence Wiley, a Normal School graduate, and teacher of several years' experience was employed to have charge of the new room, Grades IV. and V., opened in September at the Locke building. Miss Vina B. Rogers of Gardner was selected to have charge of the new school, Grade IV., at the Crosby building, opened last September. The resignation of Miss Mabelle E. Porter, of the Cutter School and Miss Ella R. Stearns of the Locke caused vacancies which were filled by the appointment of Miss Eva Gertrude Jones of Stoneham to Grades V. and VI. of the Cutter School and Miss Effie M. Philbrook of Portsmouth to Grade I. of the Locke School.

The Statute requirements relating to physiology and hygiene have been complied with by the passage of a vote substantially as outlined in the last report.

The plan of giving to one man the duties of principal of the Russell School, and the duties of general superintendency, is a good one, and is accomplishing all that could be obtained by the employment of an additional person to act only as superintendent, and at a considerable saving of expense to the town. Mr. Sutcliffe has performed the joint duties of principal and superintendent in a thoroughly satisfactory manner, and it is believed that the condtion of the Schools was never more efficient than at present. The relation between the superintendent and teachers is most harmonious, and the work is being done by all the teachers in a pleasant and profitable manner.

The problem, however, of getting the best results out of public schools is not yet fully solved. The whole subject of school work requires most careful consideration by all parties interested. The

Commonwealth might itself make a wise expenditure of money in securing the service of the most competent persons, to determine the extent and scope of the different subjects to be taught in the schools, and the due use of the time of the pupil during school hours. There ought to be a consensus of opinion among those qualified to judge upon all matters relating to the instructing and developing of the child's mind. The Commonwealth ought to be willing to furnish to towns pamphlets illustrative of the proper method of teaching the different subjects, so that at least one good method might be obtainable by every teacher. Communities, Committees, and Schools employ the present universal method of grading and classification of pupils, partly because other communities, committees, and schools employ it, and partly because of the difficulty of determining what changes should be made. They all seem to be bound fast to a system, which does not merit general approval. Too many subjects are taught in the schools, the time of the pupil is too much "cut up," too little time is left for study during school hours, and there is too little attention paid to the individual pupil, and too little opportunity for the individual's easy and profitable work. In some way classes for recitation work should be made small enough to combine those only who can do the assigned work understandingly and without fret or strain. A great good would come if parents and those otherwise interested, in each community, would turn their attention to school matters. Improvements, if found, depend for their success upon the support of intelligent public sentiment.

The several schools require no individual mention as they share equally the commendation of the Committee. The highest ideals are being sought for by the teachers of each school.

It required only a few dollars out of the general fund to complete the changes for which the special appropriation for the Russell School was made in 1898. Nevertheless about $123.75 was expended this year out of the general school fund for that special

purpose by reason of the action of the town in carrying the balance of that fund appearing in the last report of the Excess and Deficiency account.

The Committee recommend that all school balances should be carried to the credit of the schools and not be diverted to other purposes. If any such balances are to be disposed of otherwise than for school purposes, there should first be returned to the special funds the amounts taken from them.

It is desirable to continue the replacement of the old furniture in the Russell School with that of a modern adjustable pattern, but this can probably be done from time to time out of the general appropriation.

The matter of grading the Crosby yard should be covered by an appropriation specially made for that purpose when the town determines it to be wise to make the improvement. The necessity for action exists at the present time.

The attention of the town is called to the necessity of an enlargement of the girls' play-ground at the Russell School by the removal of the building belonging to the town and adjoining the school lot. A very great improvement will also be made to the street and the neighborhood by the removal. So far as the pecuniary loss to the town is concerned, and as to how much that should be considered, the town alone must be the judge.

The Robbins Spring House should be abandoned at as early a date as practicable. This might be done by the transfer of some pupils from the Cutter District to the Locke District, until a new school building shall be erected in the Cutter District. This new building is in every way desirable.

A prevalence of infectious and contagious diseases has been noted in neighboring places, but thus far no condition of things has existed here to require the closing of any of our schools. The Committee will, however, be ready to act promptly with the Board of Health whenever the exigency arises. The ease with

which disease may spread through the massing of pupils in large schools, may sometimes require the dismissal of a school through a reasonable anticipation of danger without waiting for the actual presence of disease among the pupils. Too careful observation by teachers and superintendent as to the physical condition of the pupils cannot be made. Parents sending their children out from under their own care to the custody of the teacher have a right to demand that the utmost precautions be taken, and that they be notified as soon as symptoms of a dangerous disease appear.

A superintendent's office has been fitted up on the first floor of the Russell School, at small expense, for the better accommodation of the public. Heretofore the superintendent has been obliged to see parents either at his own home or in the store-room in the basement.

The matter of a business course at the High School is still being considered. There is a diversity of opinion upon the length and scope of such a course, and the experience of any one locality is not necessarily conclusive. The additional expense is a matter to be considered. It is possible that some adjustments can be made which will reduce the amount of the additional outlay. The course should be of a truly disciplinary character, and as far as possible business methods should be taught and business knowledge acquired in a business way and not merely from books.

William H. H. Tuttle,
Chairman.

STATISTICS.

The following table indicates 1,514 pupils enrolled during the year, 1,386 on December 22d, 1347.2 average membership, 1,263 average attendance, and 93.7 per cent attendance. In 1898 the record was 1,298 December 23d, 1259.9 average membership, 1171.4 average attendance, and 92.7 per cent attendance. The 1,386 pupils at the end of the year, December 22d, 1899, were divided as follows:

High School 123; Grade IX. 100, making 223 in High School Building. A year ago it was 207.

Russell School 490. A year ago it was 440.

Crosby School 280. A year ago it was 260.

Cutter School 193. A year ago it was 193.

Locke School 210. A year ago it was 198.

The per cent of attendance for the year is 93.7.

The increase in the Crosby School was owing to the retention this year of 8th grade pupils, who heretofore have been sent to the Russell School. If these pupils had gone to the Russell School the total increase in that district would have been 70 pupils instead of 50, and the number in the Crosby School would have remained the same as last year.

REPORT

OF

ARLINGTON PARK COMMISSIONERS

FOR 1899.

No work has been done on the Menotomy Rocks Park, except what has been done by the care-taker employed during the summer months. Considerable filling has been done on the park lands near Mt. Pleasant cemetery, the Commissioners having taken for this purpose all the material that has come to their notice that could be obtained for the price offered by the town, 15c. for single loads, and 30c. for double loads.

In the settlement for lands taken for Menotomy Rocks Park there were four parcels that the Commissioners were unable to settle for at a price which they thought was fair for the town to pay. The owners of these parcels therefore brought suit against the town for damages on account of the taking of their lands. These suits were tried in court in November, and awards were made as follows:

Harrison Swan, $724.09; interest, $4.10; costs of court, $44.37; making a total of $772,56.

Heirs of Henry Swan, $724.09; interest, $4.10; costs of court, $48.07; making a total of $776.26.

Thomas C. Morton, $3,843.09; interest, $21.77; costs of court, $33.69; making a total of $3,898.55.

Artemas Frost, $500.83; interest, $2.83; costs of court, $33.69; making a total of $537.35.

*These amounts, together with the amounts paid in settlement for all the other lands taken, come a little within the $15,000.00

* Suits settled Jan. 20, 1900.

appropriated for the taking of lands for public parks. The expense of defending these suits will have to be provided for outside of the appropriation.

For a detailed statement of the amounts paid for lands taken, and of all other expenses of the Commission, we respectfully refer to the report of the Town Treasurer.

In the matter of Boulevard around the shores of Spy Pond, considerable preliminary work has been done on this line, but it is not sufficiently advanced at the present time to make any detailed report thereon.

Respectfully submitted,

J. Q. A. Brackett,
W. W. Kimball,
S. Frederick Hicks,
Arlington Park Commission.

REPORT

OF THE

BOARD OF HEALTH.

During the year 1899 there were reported to the Board of Health of the town of Arlington sixty-eight cases of contagious disease.

Of this number, forty-four were measles, the remainder, twenty-four, being made up of eight cases of scarlet fever, fourteen cases of typhoid fever, and two cases of diphtheria. These numbers are unusually small, as may be seen by consulting the Board of Health report of 1898, where there were eighteen cases of diphtheria, twenty-one cases of typhoid fever, and seven cases of scarlet fever.

Believing that measles is a disease dangerous to the public health, we include it in the list of such diseases, and require physicians to report every case to the Board of Health, that suitable measures may be taken to prevent the spread of the disease.

The disease is like scarlet fever in its power to spread from person to person by contagion. It is especially dangerous because of the complications, of which abscess of the middle ear and broncho-pneumonia are the most to be feared.

The desirability therefore of keeping this disease out of the schools is apparent, and we have formulated certain rules applying to such cases, which, we hope, parents and physicians will cooperate with us in observing for the benefit of the public health.

Within the year many houses have been connected with the

sewer, thereby generally improving the sanitary condition of the town.

It is urgently recommended that *all* dwellings be connected at the earliest possible date. Measures have been taken rendering it possible for cesspools to be promptly emptied at a moderate expense by applying to the clerk of the Board of Health.

The entire water service of the town has been replaced by the Metropolitan, which promises water of an almost unlimited quantity and exceptional purity.

PLUMBING INSPECTIONS.

During the year ending December 31, 1899, one hundred and forty-two applications for permits to perform plumbing were received, and written permits duly issued therefor.

In accordance with our rules and regulations, required tests have been carefully made, and in each case the inspector endeavors in every way possible to secure the construction of thorough and substantial work free from sanitary or other defects.

Notable progress in improvement of plumbing has been made from year to year under the requirements of the law, but to avoid defects from carelessness, incompetency, or dishonesty, the utmost care is required in making examinations and tests.

To conform with public statutes and provide additional rules concerning sewer connections and other requirements, revised and improved plumbing regulations were adopted, to take effect February 11, 1899, and supersede previously existing rules.

SLAUGHTERING ESTABLISHMENTS.

In February, 1899, our Board took decisive measures to abate nuisances caused by the slaughtering of calves and other animals at various establishments within our town limits, located chiefly

upon the territory adjacent to the lower Mystic. After protracted hearings and careful investigations, it was determined that premises owned by Frank Bowman, located at 27 Broadway, be exclusively assigned as a proper place where the business of slaughtering animals may be conducted under State and Town regulations relating thereto. Mr. Frank P. Winn was appointed Town Inspector of said slaughtering.

HEALTH REGULATIONS.

New and revised general regulations, very carefully prepared and codified, were adopted by our Board and published, to take effect October 10, 1899.

Copies have been printed for distribution in pamphlet form and can be obtained at the office of the Board, Town Hall.

We herewith append our Mortuary Record for 1899.

Edward S. Fessenden,
Edwin P. Stickney, M.D.,
Edwin Mills,
Board of Health.

REPORT

OF THE

SEWER COMMISSIONERS.

The Board of Sewer Commissioners hereby present the engineer's report of the work of the department for the year 1899, the same having been accepted and approved.

EDWARD S. FESSENDEN,
WINFIELD S. DURGIN,
WARREN W. RAWSON,
Sewer Commissioners.

To the Honorable Board of Sewer Commissioners:

Herewith is respectfully submitted the annual report of the work done under the supervision of the Sewer Department for the year ending December 30, 1899.

At the date of the last annual report, the Lowell Street sewer from Park Avenue to Westmoreland Avenue was under process of construction. As has been previously stated, it was necessary to lay the portion of this sewer between Park Avenue and Lowell Street Place at a grade that would allow the proposed sewer in Lowell Street Place to drain to Lowell Street. Consequently an average cut of nearly fifteen feet was required. A large quantity of ledge was encountered in this section, as was also throughout the length of Lowell Street, 637 cubic yards being excavated on the entire work. The soil was a very hard blue gravel, which, combined with the amount of ground water found, greatly delayed the progress of the work.

It was desired to complete the sewer on Lowell Street as soon as possible that the same might be available for use at the beginning of spring, as well as to allow for the construction of the

Lowell Street Place sewer to be proceeded with, the territory there needing immediate relief. On account of the severe weather throughout November and December, 1898, it was impossible to complete the work as soon as expected.

The pipe was finally laid January 29, 1899. It was not possible to puddle and replace the whole of the backfilling in the trench and to clean the street until the frost had left the ground, although the street was not closed for travel except for a few days. This work completed the building of Section VI., which had been contracted for with Charles G. Craib & Co. The sewer in Massachusetts Avenue, which was being constructed by the Commonwealth of Massachusetts, was also finished about this time. This completed the Section from Massachusetts Avenue at the junction of Lowell Street through Lowell Street, Private Land, Park Avenue and Massachusetts Avenue to the Lexington Town line.

In anticipation of the needs for the coming year and because of the difficulty in having sewer pipe delivered here, subject to inspection, it was decided to have the pipe inspected at the works of the manufacturers. Upon an inquiry of price and quality of pipe in the market, a contract was made through the Peirce & Winn Co., with the National Sewer Pipe Co. of Barberton, Ohio, whereby they agreed to furnish the town with nineteen carloads of first quality pipe, the same to be thoroughly and satisfactorily inspected at the works of the Company by a representative of the Sewer Department.

They further agreed to pay half the travelling expenses of the inspector to Ohio, and to deliver the pipe F. O. B. cars at Arlington and Arlington Heights subject to additional inspection for breakage. This method resulted in the town's securing not only a superior grade of pipe, but at a less cost than would otherwise have been possible.

The first work on new construction this year was undertaken

at Arlington Heights, comprising the district known as Section VII., and made possible by the building of the sewers of the previous year, being really an extension of them. This Section included Lowell Street Place (off Lowell Street), Tanager Street (the entire length), Wollaston Avenue (from near Claremont Avenue to Wachasett Avenue), Florence Avenue (from Appleton Street to Ashland Street), Appleton Street (from Vine Street to Ashland Street), Ashland Street (from Appleton Street to Florence Avenue), and Cliff Street (from Florence Avenue to near Linden Avenue); also Vine Street from the Metropolitan Sewer on Massachusetts Avenue to Sutherland Road, and Robbins Road extending to the Robbins Spring Hotel. It was intended to include a portion of Crescent Hill in this Section, and plans were made and recorded taking land for sewer purposes in the private streets. A petition, however, was received from the property owners, requesting that the sewers be not built for the present, and accordingly the work was postponed.

The construction of the sewers in Section VII. was done by H. A. Hanscom & Co. of West Medford, they being the lowest of six bidders. The building of the sewer in Tanager Street necessitated excavating to an average depth of twelve feet for the greater portion of the way, because of the low ground on the northerly side of the street.

The soil was extremely hard, and many boulders of large size were found. Ledge was encountered on all the streets included in the Section in greater or less quantities. The whole amount excavated under the contract was 602 cubic yards.

The completion of this work provides for all the residential portion of Arlington Heights, with the exception of the lower end of Appleton Street and Oakland Avenue. As soon as the Robbins Road sewer was ready for use, the Robbins Spring Hotel buildings were connected, as were also the other buildings along the street belonging to this estate.

Upon the application of Patrick J. Kelley for a connection with the sewer from his house in the rear of No. 21 Mt. Vernon Street, it was thought best to extend the Walnut Court sewer about 33 feet and connect the house direct into that sewer. This was done at a cost of $38.45, Mr. Kelley paying the additional cost of the particular sewer in connection therewith.

The rapidly increasing growth of Belknap Street required that a sewer be provided there, and it was therefore built with an outlet through Linwood Street to Massachusetts Avenue, the work being done by day labor. The material was sand for the most part, and the surplus remaining was saved for the future use of the Department.

On Gray Street, from Pleasant Street, to the house of John G. Leetch, the drainage was giving trouble and a sewer was desired. The Commissioners directed that the sewer be built. A contract was made with Michael J. Kelley of Arlington to blast 29 cubic yards of the ledge, the Department doing the remainder of the work by day labor.

When the Metropolitan Sewer was built along the Cambridge side of Alewife Brook below Lake Street, a branch was laid across the brook at the Boston & Maine R. R. which was to be the outlet for all the territory adjacent and tributary to Lake Street, to the lower end of Pleasant Street and to the southerly side of Arlington Heights. Before sewers could be built in these sections, it was necessary to extend a sewer from the outlet at Alewife Brook (already mentioned) to some point on Lake Street near the Boston & Maine R. R. crossing. A marsh surrounds the outlet in all directions and is usually covered with water of varying depth. It was through this and the low ground beyond that the pipe must be laid. Owing to the extreme dryness of the season, the Commissioners determined to do the work at once and thereby insure a better quality of work and a saving in cost. A large part of the land near Lake Street is now used for extensive

market gardening purposes, and is not laid out into streets, as the land will probably be developed. Consequently it was impossible to locate the sewer in any proposed street or way. After considering the matter carefully, an agreement was made with the Boston & Maine R. R. to allow the Sewer Commissioners to build and maintain a sewer along the easterly line of the railroad location within a strip of land five feet wide from Lake Street to the outlet,—a distance of 2,556 feet. A contract was made with H. A. Hanscom & Co. of West Medford, and work was begun July 5, 1899, the town furnishing all stock and materials, excepting lumber and gravel. The work was difficult of execution because of the nature of the soil to be excavated, the amount of water to be handled, and the remote location of the work from existing streets, which caused much inconvenience and labor in delivering the material needed for the construction. The entire length of the trench had to be close-sheeted with plank, and a large quantity was left in place after the pipe had been laid by reason of the mud and soft material encountered and the close proximity to the railroad track. Under drains from four to six inches in diameter were laid and covered with screened gravel to convey the water to the pump wells. The sewer pipe, which was 15 and 18 inches in diameter, was laid on a concrete foundation and secured on the sides and over the crown of the pipe with the same material. Piles were driven over a section of the trench about 325 feet in length, on which a timber platform was built to support the pipe and its foundation. The piles driven were of an average length of 14 feet, some being over 20 feet long. A portion of the location was on a 3° curve. The manholes here were placed 160 feet apart, the water table and dome being built all on one side and opposite to the track, in order to occupy as little railroad land as possible.

While the plans and details for the construction of the outlet sewer were being prepared, a sewer in Lake Street from the Bos-

ton & Maine R. R. to Massachusetts Avenue was built and was included in the contract of Section VII., which had just been completed. It was hoped that it would be possible to build a sewer in Brooks Avenue from Lake Street to Barnes Lane before the season closed. The Metropolitan Park Commissioners had plans for the location of a new Boulevard under consideration, which would undoubtedly affect the future layout of Brooks Avenue. No decision having been arrived at, it was impossible to proceed with the construction. It is probable that this work can be done early in the coming spring.

The total length of sewers constructed during the year was 10,953 feet, or 2.10 miles. This brings the total length in the town to 20.05 miles. As stated last year, 2.62 miles were sold to and 0.85 miles were built by the Commonwealth of Massachusetts, to which particular sewer connections can be made direct and by the same method as with those owned by the town.

The total money expended for sewers and maintenance in 1899 was $50,618.89 and the assessments levied were $28,480.27. The total assessments, including special assessments, to date (January 1, 1900), number 1,524 and amount to $111,406.06.

MAINTENANCE.

All the sewers have been thoroughly cleaned and inspected, and found to be in good condition. The same methods employed last year for flushing and cleaning have been continued.

Water services have been placed in end manholes as needed, and have proved of great convenience and efficiency. No repairs have been required throughout the year, with the exception of the changing of the grade of several manholes frames, which must be kept in conformity with the ever-changing surface of the streets, and the replacing of some brick work at a few manholes which had been disturbed by the frost.

Reference to the Town Clerk's report will give an itemized list of the expenditures for the year.

PARTICULAR SEWERS.

The work in this department has been continued along the same general lines as heretofore. Rules and regulations governing the construction and use of particular sewers have been compiled and published, and placed in the Town Clerk's office for distribution. Great care and attention has been given to details, to the keeping of records of grade and location, and the general construction of the work. All connections have been shown on the assessment plans, and notes and books have been properly referenced.

There have been 125 entrances made with the sewers during the past year, making a total length of 7,178 feet, or 1.36 miles at an average of 58c. per linear foot. There are now 473 particular sewers constructed and in operation which connect with 536 buildings, and which represent a total length of 5.76 miles.

IN GENERAL.

Beginning March 21, 1899, the horses and wagons belonging to the Department have been kept at the stable at the corner of Broadway and Webster Street, which was hired for the purpose. At this time a horse and light wagon was purchased for the use of the Superintendent, and are of great value and assistance in supervising the work of the Department.

An eight foot fence has been built around the Linwood Street yard, enabling the Department to keep the pipe and other material stored there in better condition. A house has also been built at Linwood Street, capable of holding two carloads of cement, with room for tools and supplies additional. The town can now buy cement at wholesale prices and unload directly from the cars to the new house. This will also do away with any delay

caused by a short supply in the market, as was experienced the past season.

The compiling of all plans as well as the drafting has been done by the Department, with the exception of some surveying on Section VII., and the looking up of titles in connection with the sewer assessment plans made necessary by the limitation of time.

Following is a schedule of property in charge of this Department:

Sewer Notes and Books of Record. (The value cannot be stated.)	
2 horses	$325 00
2 wagons	275 00
Stable equipment	173 00
Tools	905 00
Sewer pipe at Linwood St. Yard	1,192 00
Sewer pipe at Arlington Heights	781 00
Cement house and fence, Linwood St	568 00
Tool house, Winslow St	50 00
Tool house, Arlington Heights	40 00
Lumber	103 00
Brick	6 00
Sand	6 00
Castings and iron pipe	163 00
Office fittings, supplies and instruments	448 00
Surveying instruments	345 00
Sewer plans, estimated cost, to date	8,000 00
	$13,380 00

Respectfully yours,

ROBERT W. POND,

Engineer and Superintendent.

REPORT

OF THE

Trustees of the Robbins Library

To the Town of Arlington:

The Trustees of the Robbins Library submit their annual report:

We find a still further increase in the number of books and magazines taken out, 47,815 for 1899 as against 46,758 in 1898. The patronage of the reading-room remains about the same, while the average Sunday attendance shows a slight increase. Since October books have been delivered on Wednesday evenings until nine o'clock. Two years ago we began the recataloguing of the Library, issuing a Fiction List in the Fall of 1898, and offering it for sale at the nominal sum of ten cents a copy. During the past year this work has been carried to a successful completion by the publication of a Non-Fiction List, which has been offered at the same price. These catalogues are used freely in the Library, and greatly facilitate the finding of books. The sale for home use has not, however, been so great as might reasonably be expected and we would call special attention to this important aid to the use of the Library, which only needs to be known to be appreciated.

Eight exhibitions of photographs have been made, beginning in March, 1898.

1. Photographs of the New Congressional Library. Loaned by Miss Alice Chandler of Lancaster.

2. Views of New England. Loaned by the Boston & Maine R. R. Co., May, 1898.

3. Stella photographs of Alpine Scenery. Loaned by the Appalachian Club, October, 1898.

4. Photographs of Florence. Loaned by the Massachusetts Library Art Club, March, 1899.

5. Photographs of Venice. Loaned by the Massachusetts Library Art Club, May, 1899.

6. Platinotype Exhibition, July, 1899.

7. Western and South Western Scenery, September-October, 1899.

8. Exhibition of the "Youth's Companion," December, 1899.

A valuable collection of oil paintings, owned by Mr. Willard C. Schouler of Arlington, was also exhibited in June, and greatly admired.

A large and handsome portrait of Miss Louisa M. Alcott in crayon was presented to the Library in February, 1899, by the Misses Niles, and hangs on the north wall of the catalogue room.

Mr. Winfield Robbins has continued his generosity by the addition of many books and pictures during the past year.

The editors of the "Advocate" and the "Enterprise" have sent complete files of those papers, and have published our lists of new books.

The Library has not only been recatalogued, but the books have been renumbered and classified according to subjects, greatly simplifying the work of the attendants, and making it possible, we hope, at no distant date, to give to the public greater degree of freedom in the use of the books than heretofore.

The cost of the Catalogue, which has come out of our general income, has greatly restricted us in the purchase of books, the demands of the reading public being far greater than the ability of the Trustees to meet them.

With heavy fixed charges for service, heating, lighting and repairs, it would seem as if a larger sum must be found for the pur-

chase of books if we are to keep pace with the increasing requirements of the town.

In the appended statement will be found the statistics for 1899, a list of periodicals now taken and a statement of the hours during which the Library and reading-room are open.

Respectfully submitted,

SAMUEL C. BUSHNELL,
E. NELSON BLAKE,
FRANK W. HODGDON,
JOSEPH C. HOLMES,
JAMES P. PARMENTER.
MATTHEW ROWE,
Trustees.

LIBRARIAN'S STATEMENT.

LIBRARY HOURS.

SUNDAY.—*Reading Room*, 2.30 to 5.30 P.M.

MONDAY, TUESDAY, THURSDAY, AND FRIDAY.—*Reading Room*, 10 to 12 A.M., 1 to 6 and 7 to 9 P.M. *Book Room*, 1 to 6 P.M.

WEDNESDAY AND SATURDAY.—*Reading Room*, 10 to 12 A.M., and 1 to 9 P.M. *Book Room*, 1 to 9 P.M.

Library is *closed* on Washington's Birthday, Patriots' Day, Memorial Day, Seventeenth of June, Fourth of July, Labor Day, Thanksgiving, and Christmas.

LIBRARY HOURS, ARLINGTON HEIGHTS READING ROOM.

TUESDAY AND SATURDAY.—1.30 to 6, 7 to 9 P.M.

THURSDAY.—3 to 6, 7 to 9 P.M.

Books left at the Reading Room on *Tuesday* and *Saturday* between the hours of 1.30 and 3.30 P.M. will be exchanged, and books will be ready for delivery from 7 to 9 P.M. of the same day.

Books not left at the Reading Room on or before 3.30 P.M. on the days when due will be subject to fine.

STATISTICS.

REPORT

OF

WATER COMMISSIONERS.

The Water Commissioners herewith submit their annual report for the year ending December 31st, 1899.

The pipe systems have been extended and renewed, as required, during the year. The low-service system has been extended on Fairview avenue and Walnut street, and pipes have been laid into Walnut court. On the high-service pipes have been laid in Robbins road, Hawthorne avenue and Gray street (Atwood avenue). This latter system of pipe, with its reducing valve, located at the head of Walnut street, gives us a double reducing system and a second loop between the mains on Park and Massachusetts avenues. Other slight additions to the low-service system were required when connections were made with the metropolitan System, and about 50 feet of cement-lined pipe have been replaced by iron pipe on Broadway, where the drains of the Highway Department required the lowering of the water pipes.

As stated in our last report, the town was admitted to the Metropolitan Water Dstrict on January 31st, 1899, and the promises as to the times when the town would be supplied with water have all been fulfilled.

The several details will be given below under their respective headings.

PIPE EXTENSIONS AND RENEWALS.

In all, there have been laid 31.8 ft. of 10-in. and 4945.8 ft. of 6-in pipe, a total of 4977.6 ft.; 10 hydrants and 16 gates were set, and 2 old hydrants were removed from the low-service system.

There have been added this year 87 services, 52 connected with the high, and 35 with the low service. Four services have been transferred from the low to the high and one from the high to the low service. There have also been added 7 services for flushing sewers. 492 ft. of 4-in. cement lined pipe have been removed from Brattle street to make way for the pipes of the Metropolitan System. The following tables show the extensions in detail:

To extend the High Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Robbins road } ..... Hawthorne avenue }	3231.9	6	6	6
Gray street (Atwood avenue.)	1084	6	2	6

In all 4315.9 ft. of 6-in. pipe, 8 hydrants and 12 gates.

To extend the Low Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Medford street.....	....	..	..	2
Parallel street	31.8	10	..	1
Fairview avenue.....	210.	6	1	..
Walnut street } ..... Walnut court }	289.5	6	1	1

In all 31.8 ft. of 10-in. and 499.5 ft. of 6-in. pipe, 2 hydrants and 4 gates. One hydrant has also been set on the estate of Wyman Bros., Lake Street.

To replace cement-lined pipe on Low Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Medford street.....	81.8	6	..	..
Broadway	48.6	6	..	..

In all 130.4 ft. of 6-in. pipe.

To supply the special hydrant of Wyman Bros. on Lake Street, 320 ft. of 6-in. iron pipe were laid in their estate for which they paid the entire expense.

To eventually replace cement-lined pipe.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Broadway	950	10	2	..
Broadway	1,666	8	..	..

This pipe was laid dry in 1897 in anticipation of a regrading of the street in 1898. It is very desirable that the regrading be completed as soon as possible, so that this large pipe may be placed in service, thus insuring better fire protection to the lower part of the Town.

There are now in hand applications for pipe extensions on the following streets:

Eastern Avenue, Hawthorne Avenue, Grand View Road, Pine Ridge Road, and Forest Street.

PRESENT PIPE SYSTEMS.

Length of main pipe in use Jan. 1, 1900.

LOW SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Cement-lined pipe	12	10,991		
" "	8	5,321		
" "	6	16,266		
" "	4	23,992		
Total		56,570	82	56
Iron pipe	12	150		
"	10	2,432		
"	8	6,480		
"	6	10,608		
"	4	12,207		
Total		31,877	69	64
Total both kinds		88,447	151	120
		16.751 miles.		

HIGH SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Iron pipe	12	16,503		
"	10	17,180		
"	8	9,500		
"	6	38,566		
"	4	524		
Total		82,273	166	132
		15.581 miles.		

Total of both services: 32.33 miles of pipe, 317 hydrants, and 252 gates. The pipe laid dry in Broadway and not used is not included.

In addition to the above there are 3,436 feet of smaller pipes, 2 in. to $1\frac{1}{4}$ in., which are laid in places where hydrants were not needed and the amount of water desired was small.

The details of the cost of the pipe extensions will be found in the Report of the Superintendent. Records and sketches showing the location of the pipes and connections have been made and arranged in convenient form for use and reference.

QUALITY AND QUANTITY OF WATER.

The high-service supply was drawn from all of the wells except two, which were found to give very much more iron than the others. The ordinary poor quality of this water was rendered much worse by the very dry season.

The low-service supply was taken in great part from the brook direct, and was as good as could be expected.

It is believed that the Metropolitan water we are now using is of excellent quality and sufficient in quantity, and that there is every reason to think that when the large storage reservoir is completed its quality will be even better.

On account of the very dry season just passed the town may indeed be considered fortunate in its admission to the Metropolitan District. Had the low-service supply not been connected early in the season, we would undoubtedly have experienced a water famine.

ADMISSION TO THE METROPOLITAN SYSTEM.

An account of the action leading to the admission of the town to the Metropolitan District was given in the report of last year; the following additions are made to place the entire matter on record:

On January 31st, 1899, the Metropolitan Water Board passed

the following vote, admitting the town to the Metropolitan Water District:—

"Voted, That the town of Arlington having applied to be admitted into the Metropolitan Water District, under the provisions of Chapter 488 of the Acts of the year 1895 and Acts amendatory thereto, and having paid the sum of thirty thousand dollars, that being the sum required by the Metropolitan Water Board to be paid by said town upon its admission into the Metropolitan Water District, that is to say: having paid in cash the sum of fifteen thousand dollars and having conveyed to the Commonwealth a circular lot of land in said Arlington, with the standpipe thereon, together with certain pipes and other property, and the right to use other pipes, the same being received in lien of a payment of an additional fifteen thousand dollars, be admitted into the Metropolitan Water District, and that said town shall be furnished with water on the terms prescribed by said act of 1895, for the cities and towns named in Section 3 thereof."

As soon as practicable, plans were made to extend the Metropolitan water mains into Arlington, and land was purchased for a pumping station at the head of Brattle court, near the Boston & Maine R. R.

The system, now in place, is as follows: A 20-in. main connecting with a 24-in. main in West Medford passes under Mystic river and along Medford street to Massachusetts avenue, thence along Massachusetts avenue to Brattle street, thence down Brattle street and down Brattle court to the pumping station. A 16-in. high-pressure main returns alongside the main in Brattle court and Brattle street and connects with our high-pressure system on Massachusetts avenue, near the head of Brattle street. These Brattle street pipes having been laid in place of our 4-in. low-service pipe required its removal, and in its stead the town was allowed an additional connection to the Metropolitan main, near the head of Dudley street.

The low-service system is now supplied through a 12-in. connection with the Metropolitan main at each of the three following locations: Medford street at head of Parallel street, Massachusetts avenue at head of Medford street, and at head of Brattle street; and through an 8-in. connection placed on Brattle street at head of Dudley. With this 20-in. main as a feeder, and the various connections allowed us, no pipes larger than 12-in. diameter will be required on our low-service system.

The pipe in Medford street was competent in June and water was turned on to the low-service system on June 30th, 1899, through the connection at the head of Medford street. The water was turned on to the connection at Parallel street in October. During the summer and fall the mains on Massachusetts avenue and Brattle street were laid.

The proposed connection of the Metropolitan high-service main with our high-service at the head of Brattle street required moving the reducing valve, formerly at the head of Forest street, to the head of Brattle street. The expense of moving this valve and of making all connection with our mains was borne by the Metropolitan Water Board.

The unprecedented increase in demand for, and cost of, pumping machinery, during the past year, delayed the Metropolitan Water Board very much in carrying out their proposed plans for a new pumping station. At the suggestion of your Water Board it was finally decided to fit up a temporary pumping plant as soon as possible, transferring such part of our plant as was available to the temporary building constructed on the pumping station lot. For the machinery thus transferred the town received $2,500.00.

On January 1st, 1900, the pump at the temporary station was started, and on January 2d the remaining pump at East Lexington was stopped. Since this time water has been supplied to the high service from the Metropolitan mains. During several weeks, as was to be expected, the high-service water was roily, due to a

stirring up of the sediment in the pipes by the reversal of the current, but this is only a temporary trouble.

The Metropolitan Water Tax for the year 1899 was $2,889.15, on which a rebate was allowed, at the rate of $12.00 per million gallons, for water supplied from our sources up to June 1st, 1899, amounting to $1,042.80, thus making the net tax $1,846.35.

The assessments for the following years cannot be given exactly, but are estimated to be about as follows:

1900	$4,200 00
1901	5,500 00
1902	6,800 00
1903	7,600 00
1904	8,900 00

The rebate on our 1900 assessment is estimated at about $910.00.

PUMPING STATION.

This now contains only the boiler, suction pipes, and air pump used in connection with the driven wells. Table I. gives the pumping statistics for the year 1899, with appended columns at the right giving corresponding statistics for the years 1897 and '98. It will be seen that the quantity of water used is decidedly on the increase, and is much more than it should be.

STAND PIPE.

According to a vote of the town at its annual town meeting the stand pipe, with a circular lot of land 80 ft. in diameter, was sold to the Commonwealth, and it is now cared for by the Metropolitan Water Board.

RESERVOIR.

The reservoir has received the usual cleaning and attention.

WATER METERS.

On June 19th, 1899, new rules governing the use of water for other than domestic purposes were made, for the purpose of more equally assessing the charges for water and also for the prevention of unnecessary waste of water. To this end it was decided that all water for field irrigation, green-houses or hot-houses, hot-beds and wash-houses must be metered, and notices were issued fixing new meter rates for such purposes, which may be found in the Rules of the Water Works appended hereto. At the same time it was decided best not to meter water for domestic purposes and to limit the use of lawn hose to three hours per day, as is done in most communities to prevent the useless waste of water. 54 meters were added this year; 66 are now in use.

USES AND INCOME.

From the catalogue of services and books of the Water Registrar the following table has been prepared, showing the number of fixtures supplied:

	High.	Low.
Number of services	410	1,084
Houses paying maximum charge of $25	194	300
First faucets	424	1,280
Additional faucets	912	1,463
First bath-tubs	321	627
Additional bath-tubs	3	10
First water-closets	367	785
Additional water-closets	133	202
Vaults flushed with kitchen sink-water not used in connection with a water-closet	5	114
Hand-hose	245	429
In stables — horses	45	344
In stables — cows	19	75
Meters	7	59
Fire hydrants; no income	151	166
Drinking fountains; no income	3	2
Stand-pipes for street-watering; no income	6	13
Income, 1899,	$28,640 38	

STOCK.

There is on hand, in addition to small quantities of pipe and fittings of all sizes and necessary tools and fixtures for repairing and carrying on the works, about 3,000 feet of 6-in pipe, 1,536 ft. 8-in. pipe, 600 ft. 10-in. pipe, and 3,000 ft. service-pipe.

RECOMMENDATIONS.

We make the following recommendations:

That all the cement-lined pipes on the low-service be replaced by iron pipes at as early a date as possible, beginning at the points where the pipes are giving the most trouble and where the pressure is highest. This is especially desirable to make available a possible increase of about 10 lbs. per square inch when the reservoir at Spot Pond shall have been completed.

That the water pipes be extended according to the established rules.

That the reservoir be maintained at its present level and used, if necessary, as a reserve or auxiliary water supply, the grounds around it to be laid out as a park whenever funds are available for such purpose.

Respectfully submitted,

GEORGE W. LANE,
PETER SCHWAMB,
GEORGE P. WINN,
Water Commissioners.

EXTRACTS FROM RULES OF WATER-WORKS.

SECTION 15. The following rates will be charged annually for the use of water, namely:

DWELLING HOUSES.

Occupied by one family, for the first faucet.....	$6 00
For each additional faucet, to be used by the same family	2 00
For set tubs not supplied with faucets and filled by hose or other means, and for faucets supplied with portable tubs, the charge will be one-half the regular rates.	
For basins not connected, but convenient to other fittings, the rate will be $1.00 per year.	
Where a house is occupied by more than one family, one faucet only being used for all, for each family	4 00

Where a house is occupied by more than one family, the highest rates will be charged for each family, having the water carried into their part of the house:

Whenever one service-pipe supplies *four* or more tenements, and the rates are paid by the owner, there shall be a discount of ten per cent: *provided, however*, that in no case shall the net charge per tenement be less than thirteen dollars per year.	
For the first bath-tub.....	$5 00
For each additional bath-tub.....	3 00
For bath-tubs convenient to faucets, but not connected, the rate will be $3.00 per year.	
For the first water-closet.....	$5 00

For each additional water-closet	3 00
For hopper water-closets	8 00
For vaults flushed with kitchen sink water, in case such vaults are not used in connection with a water-closet, the rate will be $2.00 per year. When such vaults are used in connection with a water-closet there will be no extra charge.	
Where bath-tubs or water-closets are used by more than one family, for each family	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both: *provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet	$10 00
Each additional faucet	2 00
Water-closet or bath-tub, when used by boarders	10 00
Each additional bath-tub or water-closet	3 00

STORES, OCCUPIED AS OFFICE, SHOP, OR SIMILAR PURPOSE.

First faucet	$6 00 to $20 00
For each additional faucet	2 50
For water-closet or urinal	6 00

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water	$6 00 to $25 00

HOTELS.

For each bed for boarders and lodgers	$3 00
For each bath-tub in a hotel	10 00
For each water-closet in a hotel	10 00

PUBLIC BATHS.

For one tub in a public bath-house	$10 00
For each additional bath-tub	5 00
For one water-closet in a public bath-house	10 00
For each additional water-closet	3 00

STABLES.

Private Stables.	For the first horse	$5 00
"	For each additional horse	3 00
"	For one cow	2 00
"	For each additional cow	1 00
Livery club, and boarding stables.	For each horse	3 00
Car and omnibus stables.	For each horse	2 00
Truck and cart stables.	For each horse	2 00
Provided, that in no case shall any stable be charged less than		5 00

The rates for stables include water for washing carriages without hose; when hose is used $3.00 additional.

HOSE.

The use of water through hose for lawns, flowers beds, washing windows and sprinkling streets, is limited to one and one-half hours between the hours of 5 and 8 A. M. and one and one-half hours between the hours of 5 and 8 P. M. Hose nozzles must not exceed 3-8 in. in diameter. The hose may be used by hand or it may be attached to a lawn sprinkler. For hose used in this manner, when supplied from the house service, the charge will be $3.00 per year. If a separate service is used the

charge will be $6.00 per year. If the use of hose is desired for a longer period, a meter must be placed on the hose connection and the water must be paid for at the rates mentioned below.

The Board reserves the right to change the above hours, or to cut off all use of water, except for domestic purposes, in case any contingency should arise requiring such a course.

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse-power..... $6 00

METERS.

Water for field irrigation, greenhouses or hot-houses, hot-beds and wash-houses must be metered at the rates mentioned below for metered water, and water may be used at all hours.

No meters will be installed for domestic purposes.

Meter Rates will be as follows:

Up to	40,000	cu.	ft.	per	year,	15	cents	per	100	cubic feet.
From 40,000 to	80,000	"	"	"	"	13	"	"	"	"	"
From 80,000 to	1,000,000	"	"	"	"	12	"	"	"	"	"
Over . . .	1,000,000	"	"	"	"	10	"	"	"	"	"

The following meter rents will be collected each year in addition to the above charges:—For a 5-8 in. meter, $2.00; a $\frac{3}{4}$ in. meter, $3.00; a 1 in. meter, $4.00; a $1\frac{1}{2}$ in. meter, $8.00.

The minimum charge for metered water, including the meter rent, will be $15.00. In case more than one meter is used by a water taken the minimum charge for water will be $15.00 for each meter, including the meter rent. All water that passes through a meter will be charged for whether used or wasted. If a meter fails to register or records incorrectly the amount of water passing through it, the quantity to be charged for shall be determined by the average daily consumption shown by the meter when in order. It is suggested that

water takers read their meters occasionally to satisfy themselves whether or not they are working and that they immediately send notice of any irregularity to the Water Board.

BUILDING PURPOSES.

The minimum charge for water for building purposes is $3.00. When more than fifty casks of lime or cement are used the charge is six cents per cask of each.

ORNAMENTAL FOUNTAINS.

Ordinarily used three hours a day for a period of not more than four months a year:

For a jet of 1-16 of an inch	$3 00
" " 1-8 " "	5 00
" " 1-4 " "	8 00

To be cut off at discretion of the Superintendent.

Rebates will be allowed only during such time as the water is shut off, but no rebate will be allowed for a period less than one month. When a house is vacated the owner must notify the Water Registrar to have the water turned off. When the house is again occupied the owner is to give notice to have the water turned on. The charge for shutting off and turning on water in vacated houses is 25 cents for each operation.

SECTION 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners, and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases in their judgment the interests of the town shall require.

B. DELMONT LOCKE,
Water Registrar.

REPORT

OF THE

Superintendent of the Water Works.

To the Arlington Water Commissioners:

GENTLEMEN:—My report for the year ending Dec. 31st, 1899, is hereby respectfully submitted.

EXTENSION OF MAIN PIPE.

There have been 5297 ft. of pipe laid during the year; 5265.2 ft. of 6-in, and 31.8 ft. of 10-in. pipe. 129.8 ft. were to replace old pipe taken up, and 5135.4 ft. for the extension of mains principally on new streets. 4315.9 ft. have been connected with the high and 819.5 ft. with the low service systems, including 320 ft. of pipe laid for Wyman Bros.

The following table will show the streets where pipe has been laid, with size of pipe, and cost of same:

MEDFORD STREET.

Labor	$34 00	
81.8 ft. 6-in. pipe	27 80	
2 6-in. gates	22 00	
2 6-in. gate boxes	6 50	
2 6 x 4-in. reducers	5 00	
Lead and jute	5 00	
		$100 30

PARALLEL STREET.

Labor	$14 00	
31.8 ft. 10-in. pipe	22 50	
1 10-in. gate	21 00	
1 gate box	3 50	
1 10 x 10 x 6 x 6-in. special	9 00	
Lead and jute	4 00	
		$74 00

BROADWAY.

Labor	$7 25	
48 ft. 6-in. pipe	14 00	
5 specials	10 00	
Lead and jute	6 00	
		$37 25

(Note)—This pipe replaced cement-lined pipe.

GRAY STREET (ATWOOD AVENUE).

Labor	$227 50	
1084 ft.. 6-in. pipe	368 56	
2 5-in. hydrants	56 00	
5 6-in. gates and gate boxes	71 25	
1 6-in. regulating valve	127 50	
Lead and jute	52 50	
Specials	28 00	
		$931 31

ROBBINS ROAD AND HAWTHORNE AVENUE.

Labor, including rock excavation	$1,351 70	
3231.9 ft. 6-in. pipe	1,098 84	
6 5-in. hydrants	168 00	
6 6-in. gates and gate boxes	85 50	
Lead and jute	146 50	
Specials	36 00	
		$2,886 54

FAIRVIEW AVENUE.

Labor	$30 62	
210 ft. 6-in. pipe	71 40	
1 5-in. hydrant	28 00	
Lead and jute	10 50	
Specials	5 50	
		$146 02

LAKE STREET (WYMAN BROS.).

Labor	$16 50	
320 ft. 6-in. pipe, 9960 lbs	120 05	
1 5-in. hydrant	28 00	
1 6-in. gate and gate box	14 50	
Lead and jute	12 50	
Special	3 85	
		$195 30

(Note)—This pipe was paid for by Wyman Bros. The hydrant is the property of the Town.

WALNUT STREET AND WALNUT COURT.

Labor	$96 25	
289.5 ft. 6-in. pipe	98 43	
1 5-in. hydrant	28 00	
1 6-in. gate and gate box	14 50	
Lead and jute	14 00	
Special	2 00	
		$253 18
Total amount expended on main pipe		$4,623 90

SERVICE PIPES.

There have been 87 services put in during the year; 52 connected with the high and 35 with the low service systems, average for each, $11.80; total cost for new services, $1,026.60.

REPAIRS ON SERVICES.

Thirty-four services have been repaired, and 4 transferred from the low to the high, and 1 from the high to the low-service systems.

HYDRANTS AND GATES.

Eleven hydrants and 16 gates have been set during the year; two old hydrants have been taken out.

Total number of hydrants in use	317
Total number of gates in use	252

The hydrants have been examined and oiled recently; any found out of order have been repaired, and all of them are in good condition.

LEAKS IN MAIN PIPE.

We have had quite a number of leaks in the old pipe. It will always be an expense to the town as long as it is in use, besides the inconvenience and annoyance to the water takers when a leak occurs. It should be replaced by iron pipe as soon as possible.

METERS.

Fifty-four meters have been put in during the year; there are now 66 in use.

SHOP.

The shop is in good repair, but as more room was required, a new shed has been built for the wagons.

THE RESERVOIR AND BROOK.

Have been kept clean; weeds pulled up and brush cut down, and fences repaired where it was found necessary to do so.

THOMAS RODEN,
Superintendent.

WATER WORKS.

TREASURER'S REPORT.

RECEIPTS.

Balance of cash on hand Dec. 31, 1898.....	$2,966 50
Amount received during the year 1899, viz.:	
For water rates for 1899.....	28,639 88

AUDITOR'S REPORT.

The undersigned hereby certify that we have audited the books and accounts of B. Delmont Locke, as Treasurer and Collector of the Town of Arlington, also as Treasurer of the Arlington Water Works, for the year 1899, and find the same correct, with vouchers for all payments, and the balances of cash, as stated by him.

Alfred T. Marston,
Benjamin G. Jones,
Auditors.

Arlington, Jan. 27, 1900.
